WANTED: student-athlete advisory committees

Institutions, conferences urged to add groups

By Vikki K. Watson
ASSISTANT EDITOR, THE NCAA NEWS

The NCAA Student-Athlete Advisory Committee has hit the recruiting trail.

Encouraged by recent survey results indicating a large percentage of institutions that either have or want to start student-athlete advisory committees, the NCAA committee has contacted interested schools and offered to help them establish similar committees on their campuses.

The results of a survey sent to member institutions in February revealed that 45 percent of all responding institutions—and nearly two-thirds in Division I-A—have a student-athlete advisory committee or a committee with a similar purpose on their campuses. Of those that do not have such a committee, 33.8 percent are in the process of developing one.

Nearly 70 percent of active member institutions responded to the survey.

'Networking'

"The committee is trying to start a networking project," said Janet M. Justus, NCAA director of eligibility and staff liaison to the Student-Athlete Advisory Committee. "The survey is a part of that networking. We're finding out who has committees, what they do, and who wants to create them."

The committee eventually hopes to extend that network to the conference level, although it acknowledges it will take time. Only one Division I conference—the Southeastern Conference—is known to have an active student-athlete advisory group.

"Our conference is committed to putting the student-athlete at the heart of our programs," said John R. Gerdy, associate commissioner of the Southeastern Conference. "(Our committee) has been very active and very effective.

"The one thing I've learned is we have a tendency as administrators and coaches to sell student-athletes short on their ideas and their ability to understand issues. We need to listen to what they're saying."

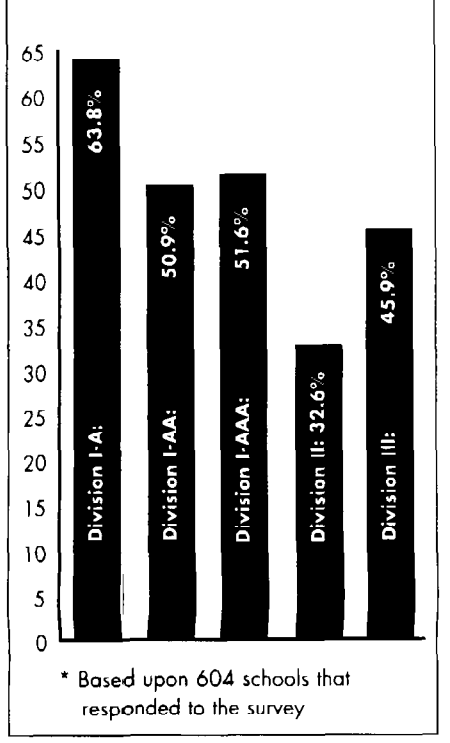

Primary topic

Those voices now have a better opportunity to be heard, thanks to the NCAA Presidents Commission and the NCAA Special Committee to Review Student-Athlete Welfare, Access and Equity. The issue of student-athlete welfare, access and equity is the primary topic for the third year of the

Convention schedule adjusted

Adjustments have been made in the 1994 Convention schedule in an attempt to assure delegates that their time at the Convention will be used as efficiently as possible.

At the suggestion of the NCAA Joint Policy Board, a general business session has been added to the schedule for Tuesday, January 11, to acknowledge the possibility that the Convention could end by 6 p.m. that day. However, the scheduled general business session for the morning of January 12 will remain on the schedule to be used if needed.

Other modest changes have been made in the schedules for most of the January 10-11 business sessions, based on an analysis of the proposals to be considered in those sessions. The accompanying revised schedule of business sessions will appear in the Official Notice of the Convention.

1994 Convention schedule

Monday, January 10 (Presidential Agenda Day)

8 to 9:45 a.m.	Divisions I-A, I-AA and I-AAA sessions
8 a.m. to 1 p.m.	Divisions II and III sessions
10 a.m. to 1 p.m.	Division I session
2:30 to 5 p.m.	General session

Tuesday, January 11

8 to 9:30 a.m.	Divisions I-A, I-AA I-AAA sessions
8 a.m. to noon, 1:30 to 3 p.m.	Divisions II and III sessions
9:45 a.m. to noon, 1:30 to 3 p.m.	Division I session
3:15 to 6 p.m.	General session

Wednesday, January 12

8 a.m. to noon	General session only if needed

Infractions committee fills general-public spots

A top trial lawyer and a retired general counsel with the University of Arizona have been appointed by the NCAA Administrative Committee to fill newly created positions on the NCAA Committee on Infractions.

The positions became available when the NCAA membership voted this year to expand the committee by two members. The positions were earmarked for representatives from the general public.

Frederick B. Lacey, a senior litigation partner with the firm of LeBoeuff, Lamb, Leiby and MacRae (New York and Newark, New Jersey), and James L. Richmond, retired general counsel at Arizona, have accepted appointments to the committee.

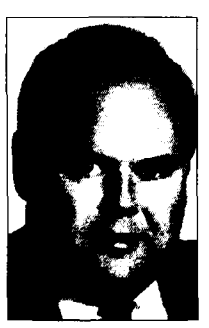

Lacey has had a distinguished career as a trial lawyer in New Jersey and New York. He served as a United States attorney in New Jersey and from 1971 to 1986 was a United States district judge for New Jersey. He has served as chair of the National Conference of Federal Trial Judges and has chaired the United States Supreme Court Advisory Committee on the Federal Rules of Criminal Procedure.

Richmond has served on the

The NCAA News DIGEST

A weekly summary of major activities within the Association

Executive director

Finalists' interviews set for November 1-2

The four finalists for the position of NCAA executive director will be interviewed November 1-2 by the NCAA Executive Committee, representatives of the NCAA Council, representatives of the NCAA Presidents Commission and members of the national-office management team.

The finalists are William W. Cobey Jr., former director of athletics at the University of North Carolina, Chapel Hill (1976-1980), and former secretary of the North Carolina Department of Environment, Health and Natural Resources (1989-1993); Cedric W. Dempsey, director of athletics at the University of Arizona and NCAA secretary-treasurer; Judith M. Sweet, director of athletics at the University of California, San Diego, and immediate past-president of the NCAA, and R. Gerald Turner, chancellor at the University of Mississippi and immediate past-chair of the NCAA Presidents Commission.

More detailed biographical information on each of the candidates appears on page 20 of this issue.

For more detail, see page 20 of this issue and the October 25 issue of The NCAA News.

Staff contact: Patricia E. Bork.

Convention

Sangster, Coll get VP nominations

William M. Sangster, faculty athletics representative at Georgia Institute of Technology, and Edward G. Coll Jr., president of Alfred University, have been nominated by the Association's Nominating Committee as vice-presidents for Divisions I and III, respectively.

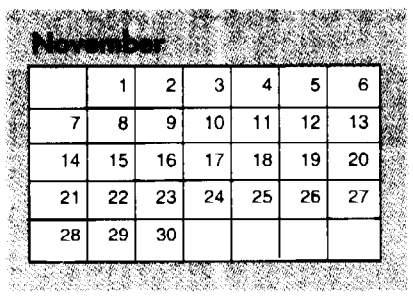

The nominations will be voted upon at the 1994 Convention in San Antonio in January.

Also, a total of 43 proposals will be considered — all by roll-call vote — during the Convention's Presidential Agenda Day. The total number of proposals before the Convention this year, counting amendments-to-amendments and resolutions, is 192. That is the largest number since the 1988 Convention faced 200 proposals.

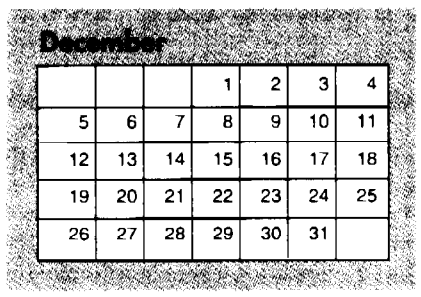

The Official Notice to the Convention will be mailed to the membership November 15. The delegate-appointment form will be sent to each institution's chief executive officer with the CEO's copy of the Official Notice.

For more detail, see the October 25 issue of The NCAA News.

12 (8 a.m.)-30 ..... Quiet period.

Women's Division I basketball*

1-8 (8 a.m.) ..... Quiet period.
8 (8 a.m.)-12 (8 a.m.) ..... Dead period.
12 (8 a.m.)-30 ..... Quiet period.

Men's, women's Division II basketball*

November 1 until the date of the prospect's initial high-school or two-year college contest: Quiet period.
Period between the prospect's initial and final high-school or two-year college contests: Evaluation period.

Division I football

1-30 ..... Evaluation period.

Division II football

1-30 ..... Evaluation period.

MAILING

15 — Official Notice to Convention to be mailed. Official Notice includes all proposed legislation and the properly submitted amendments-to-amendments. The delegate-appointment form is sent to the member's chief executive officer with the CEO's copy of the Official Notice.

DECEMBER RECRUITING

Men's Division I basketball

1-11 ..... Evaluation period.
12-31 ..... Quiet period.

Women's Division I basketball*

1-5 ..... Quiet period.
6-11 ..... Evaluation period.
12-13 ..... Quiet period.
14-18 ..... Evaluation period.
19-26 ..... Quiet period.
27-30 ..... Evaluation period.
31 ..... Quiet period.

Men's, women's Division II basketball*

Quiet period to the date of the prospect's initial high-school or two-year college contest. After that, evaluation period.

Division I football

1-23: Contact period, except for December 6 (8 a.m.) through December 10 (8 a.m.) for two-year college prospects and their educational institutions (dead period).
24-31 ..... Dead period.

Division II football

1-31 ..... Contact period.

*See page 111 of the 1993-94 NCAA Manual for exceptions. Also, see pages 114-115 for dead periods in other Divisions I and II sports.

Litigation

Drug-testing case resumes; Nevada case in appeal

A long-standing lawsuit that challenges the NCAA's right to test for drugs at its championships will be heard November 1 by the California Supreme Court.

The case, Hill and McKeever v. NCAA, involves whether California's constitutional privacy guarantee requires the activities of a private association to be subject to a "strict scrutiny test" by the courts. The NCAA has claimed that the test should be whether the need for drug testing, in balance, is greater than the claimed private intrusion.

In another matter, a three-judge panel for the Ninth Circuit of the U.S. Court of Appeals is in the process of considering the appeal of NCAA v. Miller, et al., the case that involves the NCAA's challenge of a Nevada "due-process" law.

In June 1992, a Federal judge ruled for the NCAA, saying that the Nevada law restricts the Association's ability to enforce its rules consistently in all 50 states and prevents Nevada member institutions from fulfilling their contractual obligations to the NCAA. The NCAA filed the suit November 12, 1991.

For more detail, see the October 18, 1993, and June 10, 1992, issues of The NCAA News.

Staff contacts: Frank D. Uryasz (drug testing) and Richard R. Hilliard (state law).

Gender equity

Sourcebook subcommittee to meet November 4

A subcommittee charged with developing a sourcebook of effective ideas to enhance gender equity will meet November 4 in Denver.

The group is a subcommittee of the NCAA Gender-Equity Task Force. It hopes to distribute the sourcebook by next fall.

Any individual in the membership who knows of any idea that has served to develop gender equity is encouraged to contact Janet M. Justus at the national office.

Diane T. Wendt, associate athletics director at the University of Denver, chairs the sourcebook subcommittee.

Staff contact: Janet M. Justus.

■ Briefly in the News

Blind runner keeps vision

Tim Willis lost his eyesight at the age of 10, but he did not lose his vision of a full and productive life.

Now 22, the political science major at Georgia Southern University is depending on a shoestring to give him the "sight" he needs to compete in one of his favorite endeavors—running. Competing in cross country and track and field since 1987, when he ran for Shamrock High School in suburban Atlanta, Willis is a highly accomplished athlete, despite his blindness. He runs a 4:37 mile, can clock a 16:08 in the 5,000 meters and boasts a 2:08 in the 800 meters.

In races, Willis holds on to a shoestring connected to his guide.

"Tim will excel at whatever he does," said Georgia Southern cross country coach **Jim Vargo**. "Although blind, he functions better than probably 95 percent of the people. It continues to amaze me what he accomplishes with what we consider a major handicap."

Willis said his blindness usually is lost on people when he finishes close to the front in races.

"When I finish dead last, people tend to notice that I'm blind first, but when I win, they seem to notice my ability first," Willis once told the Southerner, a campus magazine.

Vargo, who recently was appointed assistant track coach for the United States Association of Blind Athletes, said he currently plans for Willis to compete in next summer's Berlin world championships.

Georgia Southern University photo

Georgia Southern University's Tim Willis (right) set a national record for the blind with a 8,000-meter time of 28:48. During races, Willis holds on to a shoestring connected to a guide.

French football

Three football coaches for the St. Etienne Giants in east-central France recently visited coaches at Illinois Wesleyan University to sharpen their coaching techniques and game strategies.

Head coach **Marc Hegay** and assistants **Emmauel Gorce** and **Mickael Groisne** contacted Illinois Wesleyan head coach **Norm Eash** and quarterbacks/receivers coach **Jim Collins** after the pair's article—"Exploiting the Defense: Illinois Wesleyan's Short Side Passing Attack"—appeared in the 1993 summer manual of the American Football Coaches Association.

"We decided to come to the United States because we wanted to learn from the masters," Hegay said. "We chose Illinois Wesleyan because of Norm Eash's article. It was interesting and simple. We need progression in our learning, and we have to learn the fundamentals."

New scholarships

The Athletics Equipment Managers Association (AEMA) has developed a college scholarship program to assist students who have at least one year's experience in athletics equipment management and have displayed an interest in a career in the field.

Three $500 awards will be given to full-time students attending a two- or four-year accredited college or university. The scholarships will be awarded based on academic achievement, community involvement, demonstrated interest in the field of athletics equipment management, completion of an essay and letters of recommendation.

Applicants must submit a completed AEMA application form. To obtain an application, interested students can contact a district director or AEMA board member, or write Dale L. Strauf, Equipment Manager, Cornell University, Alberding Field House, Ithaca, New York 14850; telephone 607/255-4115. The deadline for submitting applications is April 12, 1994. The winners will be announced at AEMA's convention next June.

Tailgate party

In recognition of the national Red Ribbon Week observance to promote alcohol awareness, the Stanford Hospitality Alliance at Stanford University sponsored its second annual Ultimate Tailgate before the Cardinal's football game October 30 against Oregon State University.

There were many activities at the party, including "EANAB (Equally Attractive Non-Alcoholic Beverages) tasting." Distributors were invited to submit their nonalcoholic products for sampling.

Edward Leland, athletics director at Stanford, said it is important to support alcohol awareness and responsibility.

"Performance, maturity and responsibility are as important off the field as they are on it," Leland wrote in a letter used in promotional materials for the event. "Today, it is easy for many young people, and even adults, to lose sight of that fact. Opportunities to steer our children and young adults in the right direction should not be passed by, for by so doing we dismiss the chance to improve our future and theirs."

Who knew?

Over the course of a student-athlete's playing career, a strong relationship usually is forged in which player and coach come to know quite a bit about each another. But football players at Wofford College learned something new about their coach while watching the local television news.

Wofford head coach **Mike Ayers** was featured in a news story while participating in his twice-weekly karate class. After watching the piece, one of his players was heard to say, "We always listened to Coach Ayers when he spoke. Now, we will really make sure we listen."

■ Looking back

5 years ago: The results of the first nationwide survey of student-athletes, conducted for the NCAA Presidents Commission by the American Institutes for Research, were released November 19, 1988, in a press conference at the National Press Club in Washington, D.C. The study provided the basis for a number of the major efforts in the Commission's "reform agenda" that continues today. (The NCAA News, December 5, 1988)

10 years ago: The NCAA Council held a special meeting in suburban Kansas City November 1, 1983, and voted to propose legislation at the 1984 Convention to establish an NCAA Presidents Commission as a means of more effectively involving chief executive officers in athletics matters. (The NCAA News, November 7, 1983)

20 years ago: The first Division III championships ever conducted were held November 10, 1973, as Ashland College and its top runner, Steve Foster, won the Division III Cross Country Championships at Wheaton College (Illinois). ("NCAA: The Voice of College Sports" and National Collegiate Championships records book)

■ Fact file

For the first time in five years—and only the sixth time in 20 years—the NCAA Council is sponsoring more legislative proposals at the NCAA Convention than is the membership. The Council is sponsoring 93 of the 155 proposals printed in the Second Publication of Proposed Legislation. For each of the past four Conventions, the membership has sponsored more than the Council—in fact, 51 more in each of the last two years.

Source: Annual legislative summary prepared for the NCAA Council and the NCAA Committee on Review and Planning.

■ Committee notices

Member institutions are invited to submit nominations to fill vacancies on NCAA committees. Nominations to fill the following vacancies must be submitted in writing to Fannie B. Vaughan, executive assistant, in the NCAA national office no later than November 15, 1993 (fax number 913/339-0035).

Committee on Financial Aid and Amateurism: Replacement for Tim Brown, Skidmore College, resigned from the committee. Appointee must be from Division III.

Olympic Sports Liaison Committee: Replacement for Joseph L. Kearney, Western Athletic Conference, retiring as commissioner, effective June 30, 1994. Term of new appointee would be effective with Kearney's retirement. Kearney also must be replaced as chair.

Committee focuses on Bylaw 14

Bylaw 14 and its 41 pages of eligibility requirements will be the focus of 1994 deregulation and simplification efforts by the NCAA Legislative Review Committee.

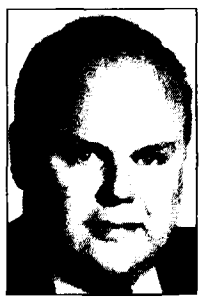

Bylaw 14 is the next step in the deregulation process the committee submitted to the NCAA Council in 1992. At its October 19-21 meeting in San Diego, the committee established a plan for next year's review of the legislation with the intent of simplifying eligibility requirements.

The committee's first attempt at deregulation was aimed at simplifying recruiting legislation. The Bylaw 13 "deregulation package" was approved by the Council for submission to the membership at the 1994 NCAA Convention. The package first appeared as Appendix A in the Second Publication of Proposed Legislation.

The proposals have since been renumbered and will appear throughout the Official Notice for the 1994 Convention, which will be mailed to the membership November 15.

Foundation board gains new chair

James T. Morris—chairman and chief executive officer of IWC Resources Corporation and its principal subsidiary, the Indianapolis Water Company—has been selected as the new chair of the NCAA Foundation board of directors.

Morris

Morris was instrumental in creating the amateur sports boom that occurred in Indianapolis in the 1980s. He was a founder and member of the executive committee of the Indiana Sports Corporation and played a major role in bringing the Pan American Games to Indianapolis in 1987. He also served for eight years on the board of the U.S. Olympic Committee as a public-sector member.

Morris was president of Lilly Endowment, Inc., from 1984 to 1989. During his 16-year tenure with the Indianapolis philanthropy, he was responsible for its work in community development, education and religion.

He is a trustee of Butler University, a member of the board of associates of Rose-Hulman Institute of Technology and a member of the board of advisers of Indiana University/Purdue University at Indianapolis.

Morris replaces NCAA Executive Director Richard D. Schultz as chair of the Foundation board of directors.

Besides the action on Morris,

See **Foundation,** page 5 ▶

Campanelli lawsuit is dismissed

Lou Campanelli, abruptly dismissed last season as head men's basketball coach at the University of California, Berkeley, had his lawsuit dismissed October 28 by a Federal judge.

U.S. District Judge Fern Smith said Campanelli, who claimed the firing damaged his reputation and his job prospects, failed to allege that University of California officials publicly disclosed the grounds for his dismissal or said anything to stigmatize him, according to The Associated Press.

Smith said the suit could be reinstated if Campanelli provided allegations within 20 days that school officials made public statements about his firing that contained serious personal accusations, such as immorality or dishonesty.

A claim that he was accused only of incompetence or failing to get along with coworkers would not show violations of constitutional rights needed for a Federal suit, the judge said.

Campanelli's lawyer, Joseph

Guest editorial

Athletes' voices are being heard

By Matthew Leighninger
COLUMBIA UNIVERSITY

For the last 12 months, the NCAA has received some bad press for a supposed lack of student-athlete involvement in its decision-making process.

Editorial pieces in various newspapers and magazines have decried the absence of a "student voice," both at the NCAA Convention and on individual campuses. To these authors, the recent incidents at several universities where student-athletes on a particular team "rebelled" against their coach are simply signs of the times. Sports Illustrated's college basketball preview last season likened different NCAA figures to planets in the solar system; a black hole represented student-athletes, with the caption "No representation, no voice."

The survey of the NCAA Student-Athlete Advisory Committee (SAAC) that is described on page 1 stands in stark rebuttal to those articles. More than half of the Division I institutions responding (604 of the 823 that were surveyed responded) indicated that they had active campus student-athlete committees of some kind. Over all divisions, about 47 percent of the responding institutions had committees.

While conference-wide committees were still rare, the survey did indicate that student-athletes were indeed finding a collective voice at hundreds of campuses, discussing issues such as NCAA academic requirements, drug and alcohol abuse among athletes, and playing- and practice-season restrictions.

Of those institutions that didn't yet have a student-athlete committee, roughly a third replied that they were in the process of developing one. Add to this the work of the newly expanded national SAAC, which influenced legislation at the 1993 Convention and has two proposals of its own to be considered this year, and substantial progress is evident.

Of course, there still is mistrust of the student-involvement concept. Some coaches probably fear that student-athlete committee meetings will become "gripe sessions" about tough practices or lack of playing time. Athletics directors may worry that student-athletes will air complaints about carefully crafted schedules or scholarship allotments.

See **Athletes'**, page 5 ▶

Athletics program more than a game

Letters

George Will's October 3 column, an excerpt of which appeared in the Opinions feature of the October 18 issue of The NCAA News, magnifies a misconception by some that college athletics should be merely an extracurricular activity for a small percentage of students.

It's a premise that ignores the academic and financial contributions of self-supporting college athletics programs (such as Louisiana State University's), their integration into the overall mission of a comprehensive university, and their impact on the university and local communities.

Louisiana State athletics offers opportunities not only to those who participate directly on one of 18 teams but to numerous other young men and women who begin their working careers by supporting the program in ways that range from sports medicine to sports media relations, who benefit from scholarship aid that is generated by the athletics department, and who hold down jobs in the community — jobs that exist because of the economic impact of the program. (That impact in Baton Rouge is $65 million in sales for businesses, another $25 million in household earnings and 1,600 jobs.)

Will scoffs at the significance of football in the overall scheme of an athletics program. But it is Louisiana State football — with its large crowds, mass popularity and donor following — that fuels the train on which, with rare exceptions, other sports programs ride. Six Saturdays in Tiger Stadium pay the freight for a diversified college program, many aspects of which are mandated by the Federal government to provide equal opportunities for young women as well as young men.

And it is also football that permits the athletics program to funnel money to the university for academic scholarships that are available to all qualified students, to underwrite professorships and for capital improvements that are not otherwise funded by state tax dollars.

We must never lose sight of the primary mission of a university and let athletics be the tail that wags the dog. But we should also recognize that athletics at Louisiana State helps a comprehensive university achieve its mission and is as integrally important to that success as any excellent academic department.

Herb Vincent
Associate Athletics Director
Louisiana State University

Environmental awareness

With my mind wholly filled with reprimandable compliance issues and my briefcase bulging at the seams with the adulterated habitat of such needy critters as the spotted owl and the 13-lined chipmunk, I depart my monthly compliance meeting saddened and dismayed.

The realization is that while our 1990s clocks are ticking, the NCAA's administrative focus is tragically wallowing in the same 1970s "ivory tower" mentality that nearly wiped out General Motors and U.S. Steel. The troops in the trenches are falling, yet the top brass still finds the battle firmly in the hand of cost-cutting.

Guess what, gang? We need not just "gender equity" but also a move toward "slender equity" in the ballooning corporate structure currently known as intercollegiate athletics. With no easy answers in hand, perhaps the NCAA will somehow find in its heart the need to at least save us from the pile of regulatory refuse under which it has buried us. Until then, maybe we should lobby their ranks for an NCAA special event: "Plant a tree for compliance!"

Craig Brown
Diving Coach
Pennsylvania State University

Opinions

NCAA rules meant to stop abuses

Ira Berkow, columnist
The New York Times

"The reason the majority of the presidents of 298 NCAA member schools voted for reduction in athletics scholarships — 10 percent across the board, not just basketball — was, the NCAA says, for cost-cutting purposes.

"College costs are spinning out of control. The college presidents thought this was one way to help curb it.

"Other regulations, like Propositions 48 and 42, which prohibit athletics scholarships and eligibility for students who fail to meet freshman academic requirements, are intended to stop exploitation of black athletes, of admitting them into college and not educating them, of admitting those who aren't interested or capable of college work.

"It would be too easy, and surely unfair, to characterize George Raveling and John Thompson, leaders of the Black Coaches Association, as being self-serving in regard to recruiting. Recently, the Black Coaches Association boycotted the National Association of Basketball Coaches meeting in Charlotte, North Carolina, as a protest against the reduction of scholarships, along with greater recruiting restrictions.

"But in regard to the stand by the black coaches, Thomas K. Hearn Jr., president of Wake Forest University and one of those who wrote the new rules, said: 'I think the issue is broader and more complex. I don't think basketball is the sole, exclusive means to solving the education problem in this country.'

"The terrible thing is that too many of the young black athletes continue to believe, or are led to believe, that sports is the only way out. The terrible thing is that too many still dream of the riches of professional sports, when only one in 10,000 makes it to the pros, and then perhaps just for a year or two. Afterward, as we know from numerous tragic stories, they may be cast adrift: no education, no future. A dream destroyed.

"The NCAA's rules, meanwhile, should not be viewed as a kind of victimization, as 'a lost opportunity.' It is a legitimate attempt to bring the abuses of college sports under some control. Despairingly, no matter how many disadvantaged athletes there are, hope does not lie with basketball."

Michael Wilbon, columnist
The Washington Post

"This (the action by the Black Coaches Association) is a fight the NCAA doesn't want and can't win. When it was one man — John Thompson — out front, the NCAA couldn't win. And it certainly can't now, not with a new group of activists saying, 'Count us in.'

"'We can't solve all urban America's ills,' Thompson said, 'but at least let us be a part of the effort. As it stands, we can't do a damned thing in the neighborhoods we are from. Our influence has been lessened. The drug dealers have more access to kids now than coaches do....I understand the goal of the rules, but there's a larger ball game out there than whether Temple can beat Georgetown that we can have an effect on.'

"It's time for the rules to be changed.

"Given that college football and basketball produce about 80 percent of an athletics department's revenue, it's time to restore two scholarships to basketball, meaning about 600 more kids will have a way to go to college."

Gender equity

Jill Pommrehn, sports editor
University of Denver Clarion

"Last spring, the team with the best record was women's basketball. At one point, it had a 19-3 record, 10-0 in conference. Why should that team have been relegated to the bottom of the page, or not covered at all? There was no reason. This was the Pioneers' best team, and the athletes deserved as much publicity as we could give them.

"When I put the sports pages together, I decide what story should get the top billing, not by the sport, but by what team won and what team has been at the middle or bottom. Each week, the top stories change, as they should. Each week, the teams' performances change; so should their positions in the school's newspaper.

"I believe the equality in sports coverage came about because I do not look at the teams as men's basketball, men's hockey, women's gymnastics or women's basketball, but rather as basketball, gymnastics and hockey. The gender of the athletes really doesn't matter. What matters is the performance."

Dreifort wins Golden Spikes

Former Wichita State University pitcher Darren Dreifort, the second player chosen in Major League Baseball's draft last June, was named October 27 as winner of the Golden Spikes Award, given annually to the nation's best amateur baseball player.

Dreifort, recently signed by the Los Angeles Dodgers, pitched three seasons for Wichita State, compiling a 26-5 record with 17 saves and a 2.24 earned run average. He pitched 261 innings, striking out 275 and walking just 85.

As a member of the U.S. Olympic baseball team last year, Dreifort was 2-0 with a 2.10 ERA and three saves.

All but four of Dreifort's 78 college appearances were as a relief pitcher.

Dreifort was a finalist for the award for the second year in a row. This year's other finalists were pitchers Brian Anderson of Wright State University, John Powell of Auburn University, Jeff Granger of Texas A&M University and Brooks Kieschnick of the University of Texas at Austin; catchers Paul LoDuca of Arizona State University and Jason Varitek of Georgia Institute of Technology; second baseman Todd Walker of Louisiana State University, and high-school shortstop Alex Rodriguez of Westminster, Florida, the No. 1 pick in the professional draft.

Foundation

Chair selected; mission refined

▶ Continued from page 3

the Foundation board also approved a revised mission statement during its October 18 meeting in Overland Park, Kansas. The new statement:

"The NCAA Foundation, a nonprofit, tax-exempt corporation, was created in 1988. The mission of the Foundation is to generate and award funds in support of programs that enable student-athletes to participate fully in the college community, to achieve successful academic and athletics experiences, and to prepare to be effective citizens and productive contributors to society.

"To achieve its mission, Foundation resources are used to support programs such as the Degree-Completion Award Program, the CHOICES Program (alcohol education), the Life-Skills Program, the Winning for Life Program and the Sports Journalism Scholarship Program."

NCAA Foundation programs

Following is a list of the major programs supported by the NCAA Foundation:

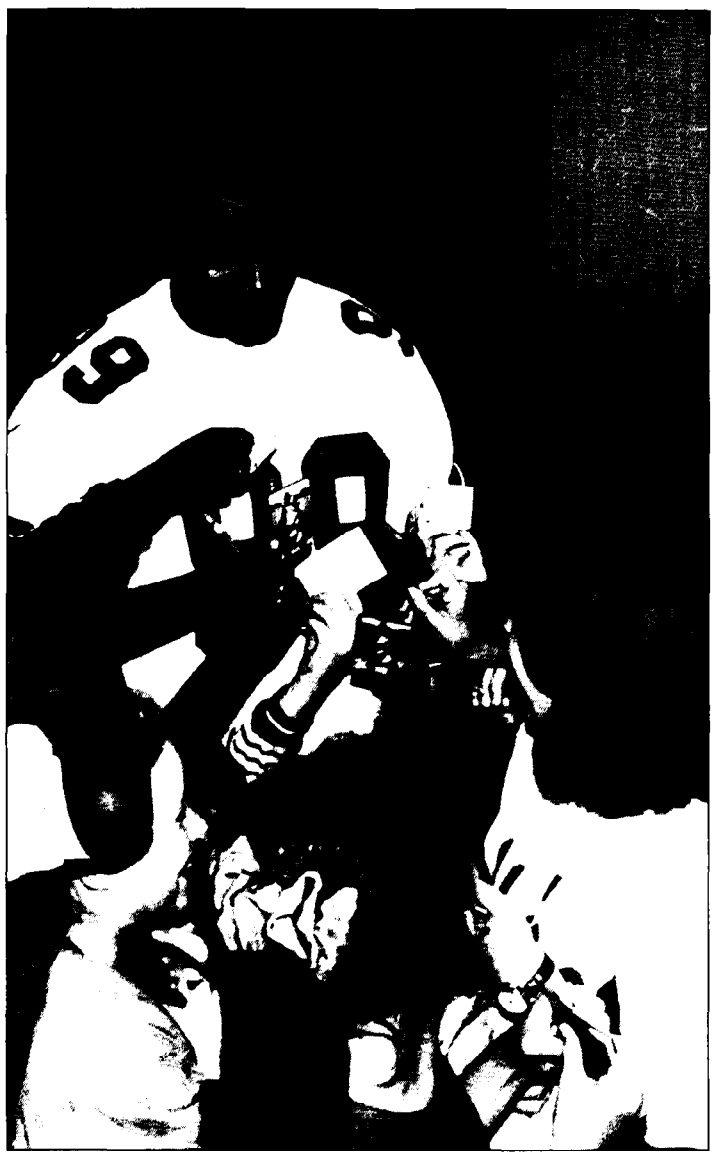

Degree-Completion Awards. Grants are made to student-athletes for the purpose of completing their undergraduate degrees. Student-athletes must have fewer than 30 semester hours remaining at the time of application. An NCAA committee reviews the applications and determines award recipients. This award program was initiated by the NCAA in 1988. The Foundation became involved in 1990.

Alcohol Education. Anheuser-Busch has committed $2.75 million for grants to member institutions to conduct alcohol-education programs (known as the CHOICES Program) on their campuses. A reader committee reviews proposals each year and determines the amounts to be granted to each winning institution. The process of rewriting the program to become an implementation program, rather than a developmental program, is underway. The grants will be made available again in fall 1994.

Life-Skills Program. This program is intended to provide student-athletes a well-rounded curriculum designed to assist in the areas of academic excellence, personal development, community service and career development. This program is funded by the corporate sector. The program materials are in the development stage, and the pilot program will begin in fall 1994.

Winning for Life. Entergy Corporation has pledged $50,000 per year for 10 years to endow a recognition and scholarship program for student-athletes majoring in mathematics, science and engineering at NCAA institutions in Arkansas, Louisiana and Mississippi.

Sports Journalism Scholarship. The Freedom Forum donated $150,000 ($50,000 per year for three years) to fund the sports journalism scholarship program. This program is designed specifically to foster freedoms of speech and press while promoting quality sports-journalism education at the collegiate level.

University of Louisville photo

DARE volunteers

In conjunction with DARE (Drug Abuse Resistance Education program), the University of Louisville football team volunteered more than 100 hours to visit elementary schools, talking about the importance of staying in school and staying away from drugs. Louisville defensive end Alton Jones (above) autographs trading cards for a group of fifth-graders during one of the visits. DARE officials believe Louisville is the only college football team to be pictured on trading cards with an anti-drug message.

Athletes'

Voices have chance to be heard, thanks to advisory groups

▶ Continued from page 4

Faculty representatives could be concerned that student-athletes will oppose campus or NCAA academic requirements.

In practice, however, student-athlete committees have not been nearly so controversial. Most of the members of the national SAAC have had experience on committees on their own campuses, and the NCAA Special Committee to Review Student-Athlete Welfare, Access and Equity has met repeatedly with involved administrators and students. From these discussions, it is clear that most committees have operated closer to the ideal: institutions that allow student-athletes to interact, discuss issues they deem important, and present positive and negative feedback both to athletics directors and to each other.

Matters of the day in these committees have ranged from the mundane (the radio in the University of Chicago weight room) to the abstract and hypothetical (the potential impact of Title IX at DePaul University). Since many teams are represented, student-athlete committees have tended to moderate the emotions and clarify the problems of "teams in turmoil." The committees often have filtered out selfish individual concerns and averted potential crises.

Not all committees have been success stories. The most common reason for failure, however, has not been too much controversy, but rather too little. A few administrators have reported low attendance or just an absence of debate.

Do these students have no opinions or concerns about their athletics lives? Is there nothing they particularly like or dislike about their athletics programs? Do they not care?

Because the students on successful student-athlete committees obviously do care, I would presume that unsuccessful committees fail because students care but don't see the point in expressing it. They may think—correctly or incorrectly—that participation isn't worth their time because their input brings no meaningful response.

The national SAAC is most concerned about this obstacle to student involvement. Our strategy for the last two years has been twofold: (1) to create a network of student-athlete committees at the campus, conference and national levels to overcome committee isolation and (2) to visibly make a difference at the national level by taking public stands on NCAA legislation that affects the interests of student-athletes.

Connection to other committees shows students that involvement works and serves as a conduit for opinion between the campuses and the SAAC. At this point, the conference level is lagging behind the campus and national levels in terms of student involvement (the Southeastern Conference is the outstanding exception). Conference committees are the critical middle links in the chain since the SAAC and the campus committees are too far removed from each other to allow effective representation, circulation of ideas and mutual support.

Seeing people like themselves speaking—and being heard—at the Convention encourages student-athletes to do the same at their institutions and in their conferences. Members of the SAAC hope that we give student-athletes an example of how to present their input sensibly and constructively. In the past, we've been involved in debate on the "good-faith" waiver, the calibration of test scores in academic standards for incoming students, restrictions on the number of contacts in football recruiting and conditions for the cancellation of a student-athlete's scholarship aid.

As the survey shows, student-athletes at the campus and national levels are increasingly being heard. On the whole, the process has been important, constructive and educational—both to administrators and to the students themselves. I think the vast majority of the students, coaches and administrators who have been involved in student-athlete committees hope that this trend continues.

Matthew Leighninger is a graduate student in public policy at Columbia University. While an undergraduate, he competed in cross country at Haverford College. He is a member of the NCAA Student-Athlete Advisory Committee and the Special NCAA Committee to Review Student-Athlete Welfare, Access and Equity.

Committee

Two spots filled

Women's volleyball warming up to rally scoring

By Gary T. Brown
THE NCAA NEWS STAFF

When rally scoring was adopted for the 1991 NCAA women's volleyball championships, many coaches felt that administrators of the game were fixing something that wasn't broken.

The argument was that rally scoring, which was introduced to shorten the length of a match in order to better accommodate the media, was a marketing ploy made at the game's expense.

The irony may be, however, that just the opposite has been the case. While rally scoring hasn't had the effect many hoped it would as far as luring live television broadcasts, there is evidence that it has added an excitement to the game that more and more initial opponents of the rule now don't want to give up.

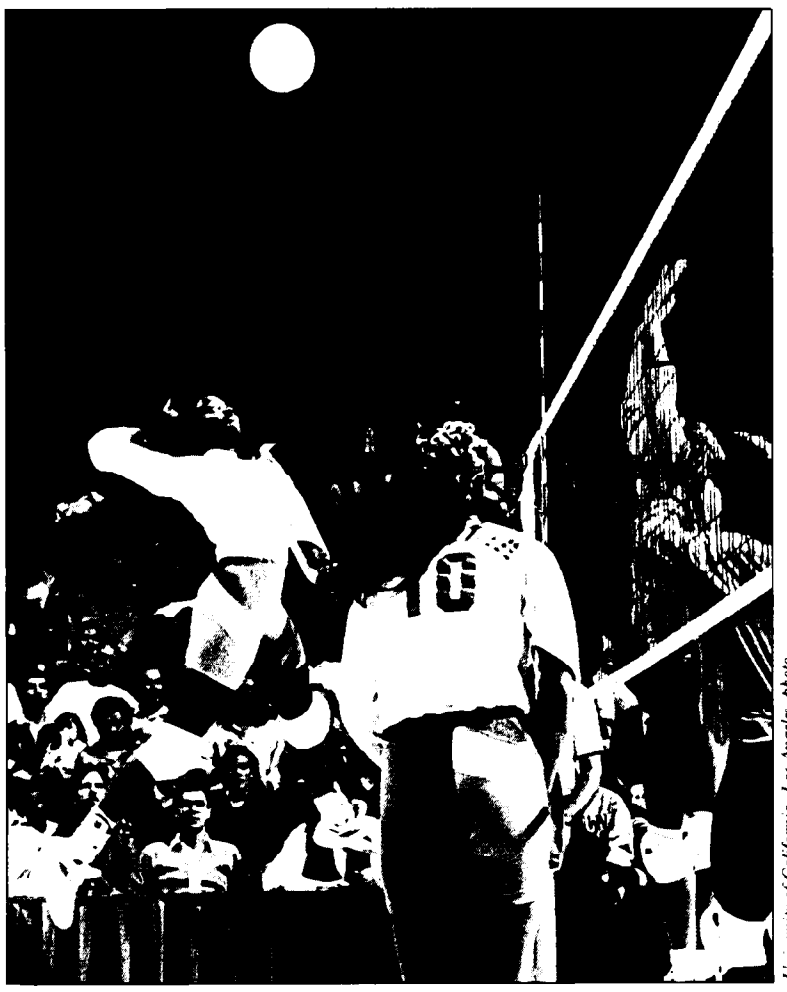

Attempt to confirm

Because debate still lingers on both sides of the fence, Cindy Lewis, chair of the NCAA Division I Women's Volleyball Committee, wants a survey regarding rally scoring and other proposed alternative scoring methods to be sent out with a future American Volleyball Coaches Association newsletter. Her hopes are that the results would reflect what she feels is a growing acceptance of the rally-scoring rule.

"It's no longer much of an issue in Division I," she said. "Most people feel that the spectators like the excitement, and that families that used to be concerned about being out too late are happy with the shorter match. But there are those purists who still want the whole match (without rally scoring). We feel, though, that rally scoring will continue to attract new spectators and that coaches will become more comfortable with it. If we can confirm that with some numbers, then we'll feel good about keeping it as a rule."

Originated in 1991

Rally scoring—in which points are awarded for each service—was adopted as an experimental rule in 1991 by the National Association for Girls and Women in Sport (NAGWS), the rules-making body for women's volleyball. The intent was to make the length of matches more predictable and thus lure television and radio networks to commit to broadcasting an entire match.

University of California, Los Angeles, photo

Rally scoring became a controversial issue in 1991 when the University of California, Los Angeles—which had been using rally scoring during the regular season—won the Division I Women's Volleyball Championship over California State University, Long Beach—which had not used rally scoring during the regular season—in a rally-scored fifth and deciding game.

Barbara Viera, women's volleyball coach at the University of Delaware and chair of the NAGWS Rules Committee at the time the rule was adopted, said that the NCAA Division I Women's Volleyball Committee spearheaded the change.

"We wanted to keep in line with the international rules and the United States Volleyball Association, which had adopted rally scoring already," she said. "It seemed to us that the NCAA Division I committee was interested, so we adopted rally scoring as an experimental rule on a two-year basis. The surveys we had sent out regarding rally scoring were indecisive in that although Division I and Division II were in favor, the overall results were not overwhelmingly in favor. That's why we made it an experimental rule."

'Next level'

The chair of the NCAA Division I Women's Volleyball Committee at that time was Christine Hoyles, who saw a need not only to attract more viewers through television but to create excitement at the end of a match.

"The committee had discussed a need to get volleyball to the next level," she said. "We already had the die-hard fans, but we wanted to attract those who maybe weren't die-hard but had an interest in the sport."

> *"There's a more positive feeling about it now that we've had a chance to use it for a couple of years."*
>
> Barbara Viera
> *Women's volleyball coach*
> *University of Delaware*

Conferences were encouraged, but not required, to use rally scoring during the 1991 regular season on the premise that it would be used in the championship. It became an issue when California State University, Long Beach—which had not used rally scoring during the regular season— lost the Division I championship to the University of California, Los Angeles—which had used rally scoring—in a rally-scored fifth and deciding game.

"At the championships at UCLA in 1991," said Debbie Chin, the current chair of the NAGWS Rules Committee, "there was a groan from the crowd when we went to rally scoring. It was obvious that these were two great teams and there was a feeling that the issue wasn't being settled the right way."

Anticipated opposition

Viera was aware that the rule would have its detractors.

"Resistance originally came from coaches who thought we shouldn't change the way you play game five from the way you play the first four games," she said. "They also worried that rally scoring played against strong, aggressive servers who now had to play it safe in game five.

"Still, there's a more positive feeling about it now that we've had a chance to use it for a couple of years. The explosiveness of the issue has been tamed."

Alternatives to rally scoring that have been discussed include awarding points after a certain number of consecutive side-outs has been reached, or awarding bonus points to a team scoring on its own serve.

Some coaches favor eliminating rally scoring and placing a scoring cap on all games. There also is support for using regular scoring in game five, but playing to seven points instead of 15. There is even talk in International Federation of Volleyball circles about dividing the match into halves, as is done in basketball.

'Exciting way to finish'

"I don't see an advantage (with alternative methods)," said Brad Saindon, volleyball coach at the University of Colorado, Boulder. "You might as well stay with rally scoring. I think it offers an exciting perspective on coaching. The rule was adopted to make the match length more predictable, but more than that, it's become an exciting way to finish a match.

"The tiebreaker in tennis is a good comparison. You've got a 6-6 set, now you have the tiebreaker. Let's see who's better—you've got to be good, and you've got to be good now. I know my players like rally scoring, and from my perspective the fans like it, too. It's made volleyball more exciting, and when you have an exciting game, it's easier to market."

Some who have studied the implications of rally scoring and other alternative scoring systems warn that tailoring the rules to attain a match length may interfere with the probability of the better team winning. They also argue that the rally scoring saves only an average of less than 10 minutes in the length of a match.

Saindon, however, wants to see more coaches jump on the rally-scoring bandwagon.

"Rally scoring works everywhere else," Saindon said. "I just wish collegiate coaches would spend more time studying it as to how it will work for them instead of complaining about it."

III volleyball committee seeks reaction to proposed '94 format

The NCAA Division III Women's Volleyball Committee is soliciting advice from the membership concerning a proposed format for the 1994 Division III Women's Volleyball Championship.

At its May 1993 meeting, the NCAA Executive Committee approved the expansion of the 1993 Division III championship bracket from 24 to 32 teams, but tabled proposals concerning the 1994 championship so that further information could be obtained from the membership.

The Division III volleyball committee has discussed ways to handle the 32-team format based on the alignment of conferences, the number of teams within regions, geographical concerns and parity of strength among regions. The committee used a formula similar to that used by the Division II Women's Volleyball and Division III Baseball Committees to help determine the number of berths allotted to each region.

The committee used this information to propose realignment of the current six regions into eight, as follows: New England, New York, Mid-Atlantic, South, Midwest, Great Lakes, Central and West.

Under the proposal, four teams would be selected from each of the eight regions, based on regional rankings. These teams would play in eight four-team regionals at on-campus sites, and the winners would advance to an eight-team final on the campus of a participating institution.

"It has taken a number of years to put this together," said Joan Sitterly of State University College at Cortland, Division III Women's Volleyball Committee chair. "This isn't something that we came up with quickly. It is important to know that we tried to stay within the concept of pure regionalization. We looked at geographical concerns, conferences and the strength of different regions in the process.

"We're looking for feedback from coaches as far as placement of teams in particular regions. We're hoping to receive insight into something we may have missed or overlooked."

The committee is urging coaches to submit questions, concerns or suggestions in writing as soon as possible to either Sitterly or Carl E. Daniels, NCAA assistant director of championships and liaison to the committee.

Publications now available

Six new editions of publications from the NCAA Sports Library now are available from the national office.

Updated publications include the 1993-94 NCAA Directory, Injury Surveillance Data Notebook, Sports Medicine Handbook, Foreign Student Handbook, Basketball Statisticians' Manual and 1994 Men's and Women's Rifle Rules.

The latest edition of the directory contains an alphabetical roster of members, with district and division designations as well as a listing of NCAA committees and the Association's administrative structure.

The Injury Surveillance Data Notebook, which sells for $15, documents injuries in the 16 sports monitored by the NCAA injury-surveillance system.

The Sports Medicine Handbook sells for $3.25 to members and $6.50 to nonmembers.

The Foreign Student Handbook contains the latest criteria for reviewing international academic standards to determine the eligibility of foreign student-athletes. It sells for $1 to members and $2 to nonmembers.

The Basketball Statisticians' Manual contains official rules, including special interpretations and approved rulings. The manual sells for $2.75.

Men's and Women's Rifle Rules, which sells for $4, contains diagrams of equipment and the official rules.

The books may be ordered by contacting the NCAA circulation staff, P.O. Box 7347, Overland Park, Kansas 66207-0347; telephone 913/339-1900.

■ Championships previews

Division I Women's Soccer

Hermann winner leads Tar Heels

Event: 1993 Division I Women's Soccer Championship.

Overview: Though North Carolina has lost all-American Kristine Lilly to graduation, returning Hermann Award winner Mia Hamm heads another loaded Tar Heel squad that is favored to win its 11th championship in the 12-year history of the event. The list of challengers is a familiar one, including Stanford, California, Connecticut, Santa Clara and Wisconsin. Notre Dame, whose lone loss this season was to North Carolina, appears set to make its first tournament appearance.

Field: The championship bracket has been expanded from 12 to 16 teams this year. Four teams from each of four regions will be selected November 7.

Dates and sites: All games will be played on the campuses of competing institutions. Four four-team regionals will be conducted November 13-14. The semifinals will be November 19 and the championship game will be November 21.

Television coverage: The championship will be televised live by ESPN2 at 2 p.m. Eastern time November 21 and also televised tape-delayed by ESPN at 1 p.m. Eastern time December 6.

Results: Championship results will appear in the November 22 issue of The NCAA News.

Championship notes: Duke's goal against North Carolina in last year's championship game was only the third scored against the Tar Heels in 11 title games. The Tar Heels have outscored their opponents, 35-5, in championship games....Duke was the ninth different runner-up in the history of the championships. Only Connecticut and Colorado College have finished second twice....California, which hasn't been in the tournament since 1988, could make an appearance this season after downing Santa Clara and tying Portland. The Golden Bears, who were unbeaten at 9-0-4 until consecutive losses to San Francisco and Stanford, are led by Erika Hinton (nine goals, five assists), California's second all-time leading point scorer....North Carolina got a scare at Santa Clara earlier in the season, rallying from a 2-0 half-time deficit to win, 3-2. "Sometimes you're thankful for half time," said Santa Clara coach Jerry Smith. "But against Carolina we wish we could've just played straight through."

Santa Clara University photo

Erin Martinez and Santa Clara are hoping to knock North Carolina off its championship pedestal.

What they are saying

Chris Petrucelli, head coach
Notre Dame

"We start four freshmen and five sophomores, but we've got the best chemistry we've ever had—of course, that tends to happen when you're winning. North Carolina is the obvious favorite and everyone else is fighting for second, but we're not going to worry about North Carolina until we have to play them. We've got to win a lot of games before we play them again."

Division I Men's Soccer

Virginia seeks rare triple win

Event: 1993 Division I Men's Soccer Championship.

Overview: Virginia goes for its third straight crown after becoming the first school in 10 years to win back-to-back titles. The Cavaliers are paced by freshman Mike Slivinski (eight goals, nine assists) and sophomore all-American Claudio Reyna (eight goals, five assists). The Cavaliers, however, might not even be the top-seeded team in the Atlantic Coast Conference postseason tournament. That spot may go to Clemson, which knocked off a previously unbeaten Cavalier squad in October on a last-second goal. Another challenger for the Division I title is Creighton, which fashioned an unbeaten record through late October and was ranked No. 1 in the Intercollegiate Soccer Association of America top-20 poll.

Field: The championship bracket has been expanded from 28 to 32 teams this year. One team will be chosen from each of eight regions and the other teams will be selected at large. Selections will be made November 8.

Dates and sites: All games before the semifinals will be played on the campuses of participating institutions. First-round games will be completed by November 14, second-round games by November 21 and third-round games by November 28. The semifinals and final will be December 3 and 5 at Davidson.

Television coverage: The championship semifinals and final will be broadcast live by Primesportschannel. The semifinals will be at 2 p.m. Eastern time December 3 and the final will be at 1:30 p.m. Eastern time December 5.

Results: Championship results will appear in the December 6 issue of The NCAA News.

David L. Greene photo

Claudio Reyna is the second-leading scorer for Virginia, which is going for its third straight title.

What they are saying

Bob Warming, head coach
Creighton

"We have 10 seniors who have been the core of the program since I started it from scratch four years ago and they've become better players each year, both skill-wise and physically. As a result, we're able to complete some of the things we set out to do that first year. These guys are bright, highly motivated players who work to correct their weaknesses. My goal is to have people think of Creighton as the soccer power in the Midwest, just like you think of Virginia in the East and UCLA in the West."

Division II Men's Soccer

Defending champion faces list of challengers

Event: 1993 Division II Men's Soccer Championship.

Overview: Defending champion Southern Connecticut State is a slight favorite to capture its fourth title in seven years, but the list of challengers includes Gannon, South Carolina-Spartanburg, Tampa, Seattle Pacific and Florida Tech. South Carolina-Spartanburg hosted what may be a preview of the championship in October at its Tournament of Champions, which featured Seattle Pacific, Tampa and Southern Connecticut State. South Carolina-Spartanburg emerged with the best record after downing Seattle Pacific and tying Southern Connecticut State. The four teams have made a four-year commitment to the tournament at rotating sites—Tampa in 1994, then at Seattle Pacific and Southern Connecticut State.

Field: Twelve teams from four regions will be selected November 7. The top four teams will receive first-round byes.

Dates and sites: All games will be played at on-campus sites. First-round games will be completed by November 14 and second-round games by November 21. The semifinals will be December 3 or 4, and the final will be December 4 or 5.

Results: Championship results will appear in the December 6 issue of The NCAA News.

Championship notes: Tampa goalkeeper David Winner opened the campaign with seven consecutive shutouts before allowing two goals in a loss to Florida Tech. Then, the floodgates opened in an 8-4 setback to Seattle Pacific.... Southern Connecticut State's only loss has been to Gannon, 1-0. It is the only game in which the Owls have been shut out. Owl goalkeeper Bo Oshoniyi has whitewashed eight opponents and needs just three more shutouts to set a school career record.

What they are saying

Ray Reid, head coach
Southern Connecticut State

"We're not even thinking about repeating—we're just trying to get to the tournament. Our chemistry is good, the guys are working hard, but everybody is up for us when we play them, so it's tough."

Rob Russo, head coach
South Carolina-Spartanburg

"I think our tournament (the Tournament of Champions) made people stand up and take notice of South Carolina-Spartanburg. I've always stressed defense. Great defenses win tournaments, and I think that may be a lost art in college soccer right now."

Southern Connecticut State University photo

Sherwin Mullin of Southern Connecticut State was the New England Collegiate Conference rookie of the year last season.

Tom Fitzgerald, head coach
Tampa

"We put ourselves in a hole when we lost to Florida Tech, but if we can beat South Carolina-Spartanburg and Lander at home, then I think we'll be in good shape."

Division I Field Hockey

Long-dominant Old Dominion now has company

Event: 1993 Division I Field Hockey Championship.

Overview: Parity is the key word. Old Dominion, which has won the last three championships by posting shutouts in each of the title games, is 12-3-2 this season. The queen is far from dead, but if there is to be a changing of the guard, this could be the year. Penn State was the first team to dent the Lady Monarchs' armor, posting a 2-1 victory, and was undefeated through its first 15 games before suffering a 4-0 loss at Iowa, last year's runner-up. Second-ranked Northwestern (11-2-1); Maryland, which shares the No. 4 ranking with Old Dominion, and sixth-ranked North Carolina are among the Nittany Lions' victims. Third-ranked Massachusetts and Maryland also have beaten the defending champions. The Minutewomen, who already have captured the Atlantic 10 Conference regular-season title for the second straight year, went on a 14-game winning streak after bowing to Northwestern in their opener.

Field: The 12-team tournament field will consist of the top team from each of six regions (Northeast, Mideast, Mid-Atlantic, South, Midwest and West). The remaining participants will be selected at large.

Dates and sites: First-round competition will be November 11; the second round will be played November 14. Both rounds will be played on the campuses of competing institutions. The semifinals and championship game will be played November 20-21 at Piscataway, New Jersey, where Rutgers University, New Brunswick, will serve as host.

Results: Championship results will be published in the November 22 issue of The NCAA News.

Championship notes: Old Dominion posted three shutouts in last year's championship to finish the season with a 24-0 record....Last year's title game was played in front of a championship-record crowd of 3,036....Overall, Old Dominion has won seven championships since the tournament started in 1981. The only other teams to have won are Connecticut (1981 and 1985), Iowa (1986), Maryland (1987) and North Carolina (1989).

What they are saying

Charlene Morett-Newman, head coach
Penn State

"We felt that our game with them (Old Dominion) always has been competitive. We played well, we just didn't win. This year we played well and won. It gave us a lot of confidence. I still have great respect for them. Just because they're not on top now doesn't mean they won't be at the end of the season."

Marisa Didio, head coach
Northwestern

"Any team in the top 12 has a 50-50 chance of beating the other. I think it has to do with the development of the sport. These coaches are seasoned professionals who have been at their schools long enough to build a cycle of success. It's excellent for the sport."

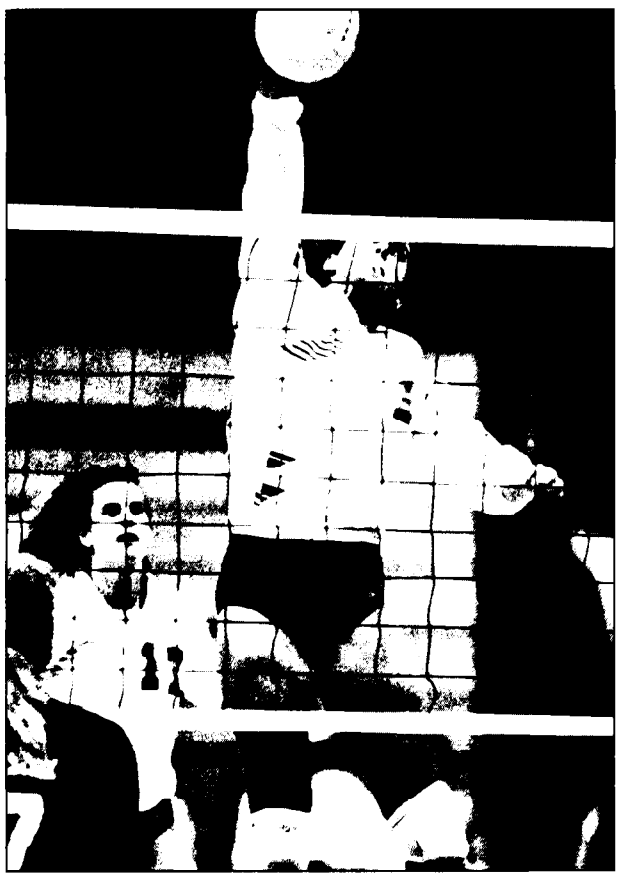

Pam Hixon, head coach
Massachusetts

"There's always been a lot of parity, with the exception of Old Dominion. North Carolina and Iowa also seem more mortal than normal. It's excellent for the sport for more teams to think they have a chance."

University of Massachusetts, Amherst, photo

Jenn Salisbury (No. 23) has a team-high 18 assists for third-ranked Massachusetts, which is among several teams hoping to knock off three-time defending champion Old Dominion.

Washington University (Missouri) photo

Amy Sullivan of Washington (Missouri) tied an NCAA record earlier this season with 14 aces in one match.

Division III Women's Volleyball

Washington (Missouri) favored for third straight

Event: 1993 Division III Women's Volleyball Championship.

Overview: Two-time defending champion Washington (Missouri) is a strong favorite to become the second team to win three consecutive championships. The other triple winner was UC San Diego, a top challenger again this year. Earlier this season, Washington rallied to beat the Tritons at San Diego, 3-2, after dropping the first two games. UC San Diego served for match point 10 times in game four but lost a 17-15 decision. Game five also went to the Bears, 17-15. Juniata also is in the championship hunt after handing Washington its only loss of the season. Washington and UC San Diego have combined to win the last seven championships.

Field: The bracket has been expanded from 24 to 32 teams this year. At least four teams will be selected from each of six regions, and the remaining teams will be selected at large. Selections will be made November 7.

Dates and sites: All matches will be played on the campuses of participating institutions. First-round matches will be played November 10, and regionals will be November 12-13. The semifinals will be November 19 and the final will be November 20.

Results: Championship results will appear in the November 22 issue of The NCAA News.

Championship notes: Juniata's 3-1 victory over Washington (Missouri) this season snapped a 59-match winning streak for the Bears that dated to November 8, 1991. The victory avenged an early-season loss to the Bears....Junior Amy Albers of Washington is on a pace to set an NCAA record with a nation-leading hitting percentage of .553. Teammate Amy Sullivan tied a record earlier this season with 14 service aces in one match. She has 81 for the year....Ohio Wesleyan is placing its hopes of a first tournament appearance on sisters Jen and Carrie Kraly, the first sister tandem to reap individual player-of-the-week honors in the North Coast Athletic Conference.

What they are saying

Teri Clemens, head coach
Washington (Missouri)

"The biggest change from past years is that we're still developing chemistry this late in the season, which is both good and bad. We have the depth to make some changes, but we field a pretty young team."

Larry Bock, head coach
Juniata

"Right now, this team is being pushed hard by teams we're facing down the stretch, whereas last year the stretch run wasn't as strong. People are playing this group real tough and we're responding. If things go true to form in the next month, we'll be a little battle-hard, and that will be an improvement over a year ago."

Hobart considers lacrosse move

The Hobart College men's lacrosse team has won the Division III championship every year except one since 1980, but new scheduling rules are prompting school officials to consider moving the program to Division I starting in 1995.

"We're trying to make a choice that will allow us to manage our destiny in the best interests of the institution," Hobart athletics director Michael Hanna told The Associated Press.

The college's board of trustees is expected to vote on a possible reclassification of men's lacrosse during a meeting scheduled for November 5 through 7.

Since the NCAA created multiple divisions in the sport, Hobart has remained in Division III but kept several Division I teams—including Syracuse University and Cornell University—on its regular-season schedule.

Beginning in 1995, however, Division I programs will have to play at least 10 regular-season games against other Division I teams. Also, each game beyond the minimum that is scheduled against a team outside of Division I must be matched with an additional contest against a Division I team.

I women's basketball sets expanded format

Tinkering with the new 64-team format was the priority for the NCAA Division I Women's Basketball Committee at its October 24-25 meeting in Richmond, Virginia.

The tournament field was expanded to 64 teams by action of the NCAA Executive Committee at its May meeting. The Division I women's bracket had consisted of 48 teams since 1989.

The expanded bracket will require every team selected for the tournament to play in first-round competition. Thirty-two first-round games will be played March 16 on the campuses of competing schools. The 16 winners will advance to second-round campus sites the following Saturday or Sunday, March 19 or 20.

Effective in 1995, the format will provide for four teams to play first- and second-round games at each

I-AA single-game highs

PLAYER

Rushing and passing yards: 570, Steve McNair, Alcorn St. vs. Texas Southern, Sept. 11.

Rushing and passing plays: 68, Dan Barnett, Illinois St. vs. Western Ill., Oct. 2; Tony Hilde, Boise St. vs. Northern Ariz., Oct. 9.

Rushing yards: 289, Rico White, Alabama St. vs. Prairie View, Oct. 23.

Rushing plays: 48, Willie High, Eastern Ill. vs. Northern Iowa, Oct. 16.

Passes completed: 38, Jay Walker, Howard vs. Towson St., Oct. 16.

Passes attempted: 60, Tom Proudian, Iona vs. Wagner, Oct. 2.

Passing yards: 485, Tom Proudian, Iona vs. Siena, Oct. 30.

Passes caught: 17, Elliott Miller, St. Francis (Pa.) vs. Central Conn. St., Oct. 2.

Receiving yards: 220, Tim Silo, Iona vs. Wagner, Oct. 2.

Punt return yards: 130, Dexter Dawson, Ga. Southern vs. Va. Military, Oct. 23.

Kickoff return yards: 197, James Cunningham, Howard vs. Alcorn St., Sept. 25.

TEAM

Points scored: 70, Middle Tenn. St. vs. Campbellsville, Sept. 18.

Rushing and passing yards: 730, Delaware St. vs. Morgan St., Oct. 23.

Rushing yards: 529, Citadel vs. Lees-McRae, Oct. 2.

Passing yards: 485, Iona vs. Siena, Oct. 30.

Fewest rushing and passing yards allowed: 32, Rhode Island vs. Brown, Oct. 2.

Fewest rushing yards allowed: -30, James Madison vs. Lock Haven, Sept. 4.

Last week's bests

PLAYER

Rushing and passing yards: 505, Tom Proudian, Iona vs. Siena, Oct. 30.

Rushing yards: 271, Markeith Ross, Weber St. vs Southern Utah, Oct. 30.

Passing yards: 485, Tom Proudian, Iona vs. Siena, Oct. 30.

Passes caught: 14, Todd Eckenroad, St. Francis (Pa.) vs. Canisius, Oct. 30.

Receiving yards: 184, Rod Alexander, Northern Ariz. vs. Idaho, Oct. 30.

TEAM

Rushing yards: 488, Jacksonville St. vs. Alcorn St., Oct. 30.

Passing yards: 485, Iona vs. Siena, Oct. 30

Rushing and passing yards: 667, Iona vs. Siena, Oct. 30.

Points scored: 65, Western Caro. vs. Newberry, Oct. 30.

Receiving record

Principia College senior wide receiver Matt Newton has become a familiar name among Division III statistical leaders. And he is becoming a familiar name in the records books as well. With 13 catches October 23 against Earlham College, Newton increased his career receptions total to 264, breaking the 12-year Division III mark of 258 set by Bill Stromberg of Johns Hopkins University from 1978 to 1981. Last year, Newton also set the Division III single-season record for most passes caught per game (12.3).

■ Satisfactory-progress waivers

Following is a report of actions by the NCAA Academic Requirements Committee Subcommittee on Satisfactory-Progress Waivers on requests for waivers of satisfactory-progress legislation.

This report covers actions taken by the subcommittee in telephone conferences May 24, June 25, July 15, August 20, September 1 and September 15 and during a meeting of the Academic Requirements Committee June 26.

Acting for the Academic Requirements Committee, the subcommittee:

Considered the following satisfactory-progress waivers, per NCAA Bylaw 14.5.2.2 ("25/50/75"):

■ Approved a waiver request from a national service academy that the percentage of degree requirements specified in the legislation apply only to the years of the student's enrollment at the relevant national service academy; that prior collegiate enrollment not affect the applicable percentage requirements, and that such students, however, will continue to be subject to the Association's five-year clock and other continuing eligibility and satisfactory-progress legislation. The committee noted that U.S. Code 10 specifies that students must attend a national service academy for not less than eight full semesters, regardless of any prior enrollment or academic performance at another collegiate institution, and that national service academies may not accept transfer credit. Accordingly, Federal legislation precludes a transfer student from fulfilling the percent of degree requirements specified in 14.5.2.2 upon transfer to a national service academy.

■ Considered a waiver request, per 14.5.2.2 ("25/50/75"), from a member institution related to the possibility that degree-related courses may not be available to student-athletes pursuing a nursing degree and determined that it would be necessary to review such waiver requests on a case-by-case basis. The subcommittee noted that it has no authority to waive the application of the Association's basic 24-hour/12-hour satisfactory-progress legislation, per 14.5.4, or the designation-of-degree requirement, per 14.5.4.3.

Considered the following satisfactory-progress waivers, per 14.5.3.2 ("90/95"):

■ Denied a waiver request from a member institution regarding the institution's grade-point system that is divided into an upper and lower division in which graduation is solely dependent upon the upper division grade-point average. The institution requested a waiver to permit all student-athletes relief from the grade-point average requirement. In denying the waiver request, the subcommittee noted that the issue surrounding the grading system would be similar for all transfer students, and that it would be more appropriate for the institution to compute grade-point averages based on the method used for all students. The subcommittee also noted that it would be a relatively simple task for the institution to combine the upper and lower division grade-point averages in order to comply with NCAA regulations, although it is sensitive to the additional administrative burdens of 14.5.3.1.

■ Denied a waiver request from a member institution on behalf of all of its student-athletes enrolled in its cooperative-education program. The institution requires 18 months of cooperative-education work experience for several majors; the work is optional for other majors. As a result, a cooperative-education student-athlete in good academic standing is considered to be enrolled in the third academic year after five quarters with a minimum grade-point average of 1.700 (4.000 scale); a fourth-year student-athlete, after seven quarters, needs a minimum grade-point average of 1.840, and a fifth-year student-athlete, after nine quarters, needs a minimum grade-point average of 1.930. Students must have a 2.000 grade-point average to graduate. In denying the waiver request, the subcommittee noted that a student-athlete's ability to fulfill the Association's grade-point average requirements should not be adversely affected by participation in a cooperative-education program. In addition, the subcommittee noted that, if necessary, it could consider such waiver requests on a case-by-case basis.

Considered the following satisfactory-progress waivers, per 14.5.4.1.1 ("75/25"):

■ Approved the application of a member institution related to its nontraditional academic calendar, which divides the academic year into four terms of equal length, with respect to credit hours earned by student-athletes during the second summer term after matriculation. In approving the request, the subcommittee noted that the institution requires residence during this term. The subcommittee also noted that its decision would not preclude the further consideration of credit hours earned during the institution's other summer terms, but emphasized, however, that it would be necessary to review such requests on a case-by-case basis.

■ Approved the application of a member institution related to its degrees in architecture and engineering, which have mandatory cooperative-education components. The subcommittee approved the request related to course work completed during the third and fourth years of enrollment only. In approving the request, the subcommittee noted that students follow traditional enrollment patterns during the first and second years of enrollment and that it would not be appropriate to waive 14.5.4.1 during those academic years. The subcommittee concluded, however, that it would be appropriate to count hours completed during the terms of mandatory summer attendance that follow the conclusion of the third and fourth academic years toward the "regular" academic year requirement, per 14.5.4.1. The subcommittee also noted that, per official interpretation, the institution's cooperative-education students must be enrolled full-time to be eligible for practice and competition.

■ Approved the application of a member institution related to a student-athlete who attended the certifying institution for four semesters and three summer terms beginning the summer of 1990 through the summer of 1992 and completed 47 credit hours with a 1.520 grade-point average. Pursuant to the institution's academic requirements, he was suspended for the 1992-93 academic year. In order to be reinstated in the fall of 1993, he had to successfully complete eight credit hours with a 2.000 grade-point average or better during the summer of 1993. The institution requested permission to count one hour as a "regular" academic hour to meet 14.5.4.1. In approving the request, the subcommittee noted the student's progress toward degree completion and the fact that he needed only one credit hour to fulfill satisfactory-progress requirements. The subcommittee also noted that the reason for the student-athlete's academic suspension was an institutional requirement that was more stringent than the Association's academic requirements. Finally, the subcommittee noted that the adoption and implementation of 14.5.4.1 may have occurred in a way that precluded the student-athlete from anticipating the effect of this legislation on his continuing eligibility.

■ Reconsidered and denied the application of a member institution on behalf of a student-athlete who had satisfactorily completed 43 credit hours with a 2.130 grade-point average between the fall of 1990 and the spring of 1992 at the certifying institution. In the spring of 1992, he was dismissed under disciplinary suspension for the spring and fall by the certifying institution. He then returned to the institution in the spring of 1993 and successfully completed 13 credit hours. In order for the student-athlete to use the one-time transfer exception to be eligible upon transfer to another institution in the fall of 1993, he had to complete 11 hours during the summer. The institution requested permission to count eight of the summer hours as "regular" academic hours to meet 14.5.4.1. In denying the request, the subcommittee noted that the student-athlete had a reasonable amount of time to improve his academic progress and the large number of satisfactory-progress hours contained in the waiver request.

■ Denied the application of a member institution on behalf of a student-athlete who had completed his third semester at the certifying institution and was placed on academic suspension with a 1.840 grade-point average. In order to be reinstated for the spring term of 1993, the student-athlete entered into an academic contractual agreement with his academic dean. The contract involved four courses, only two of which would count toward the Association's satisfactory-progress requirements. The student-athlete successfully completed 21 hours during the 1992-93 academic year, but only 15 credit hours counted toward his degree requirements. He completed nine credit hours during the summer of 1993 in order to fulfill the cumulative aspect of the Association's satisfactory-progress rule. The institution requested permission to count three hours as "regular" academic hours to meet 14.5.4.1. In denying the request, the subcommittee noted the weakness of the student-athlete's postsecondary academic record and that he had failed important course work. Further, it noted that the institution had broken its own reinstatement contact by permitting him to enroll in PE 1121 (varsity football), which was not included in the "academic contract" for reinstatement.

■ Approved the application of a member institution on behalf of a student-athlete who transferred from a two-year college to the certifying institution in the fall of 1992 with 61 credit hours. During the 1992-93 "regular" academic year, he successfully completed 15 satisfactory-progress credit hours. Due to a misunderstanding with his academic adviser, the student-athlete enrolled in EPSE 200 instead of an "economics" elective. As a result, the three-hour course could not be counted toward satisfactory progress. The student-athlete completed nine credit hours during the summer of 1993 in order to fulfill the cumulative aspect of the Association's satisfactory-progress rule. The institution requested permission to count two hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted the student-athlete's strong course of study and "good-faith" effort to meet the requirements of 14.5.4.1 during the academic year, after receiving erroneous information from an adviser.

■ Denied the application of a member institution on behalf of a student-athlete who transferred from a two-year college to the certifying institution in the fall of 1992 with 60 credit hours. In the fall of 1992, he declared his major in physical education with teacher certification K-12, pursuant to the institution's degree-declaration policies. After talking with his adviser, he decided to change his area of emphasis from K-12 to 6-12. The student-athlete then enrolled in PHED 375, with the understanding that the course would count toward his new major. However, inasmuch as the change of major did not occur before the beginning of the semester or within the three-week period permitted, per institutional policy, it resulted in a shortage of hours earned during the "regular" academic year. The institution requested permission to count two of the hours as "regular" academic hours to meet 14.5.4.1. In denying the request, the subcommittee noted the weakness of his overall postsecondary academic record, and that an institutional policy prevented him from changing his major during the semester to enable him to count the three hours in question.

■ Approved the application of a member institution on behalf of a student-athlete who suffered from a learning disability in the areas of English and mathematics. During the 1992-93 academic year at the certifying institution (his initial year of enrollment), he successfully completed 14 regular credit hours, as well as three remedial, noncredit hours. He enrolled in seven credit hours during the summer of 1993 in order to fulfill the cumulative aspect of the Association's satisfactory-progress rule. The institution requested permission to count one hour as a "regular" academic hour to meet 14.5.4.1. In approving the request, the subcommittee noted that the student-athlete was only one credit hour shy of meeting the regulation, and that the deficiency appeared to be due, in part, to a documented learning disability.

■ Reconsidered and approved the application of a member institution on behalf of a student-athlete who transferred to the certifying institution from a two-year college in the fall of 1991. During the 1991-92 academic year, he satisfactorily completed 25 credit hours with a 1.520 grade-point average. During the fall of 1992, he suffered a serious arm injury and encountered other significant personal and family health problems. As a result, he finished the semester passing eight hours, with only five hours applicable to his degree program. He also received erroneous advice from the institution regarding his future eligibility and, based in part on this information, did not return to the institution during the spring of 1993. The institution applied Bylaw 14.5.6-(a) (missed-term exception) for the spring term of 1993. The institution requested permission to count 3.25 hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student-athlete had received erroneous information from the institution and, coupled with the extenuating personal and family health problems, this resulted in a substantial hardship for the student-athlete.

■ Denied the application of a member institution on behalf of a student-athlete who, after academic suspension by the certifying institution during the fall of 1992, enrolled in 18 credit hours in the spring of 1993, six of which were repeated hours, in order to be eligible in the fall of 1993. However, due to financial constraints, he could not purchase books and was forced to secure part-time employment. As a result, he successfully completed only 15 credit hours. The institution requested permission to count nine hours as "regular" academic hours to meet 14.5.4.1. In denying the request, the subcommittee noted the weakness of the student-athlete's postsecondary academic record and that his financial hardships, while significant, should not have resulted in his failure to complete course work.

■ Denied the application of a member institution on behalf of a student-athlete who had successfully completed 15 credit hours in the fall of 1992 at the certifying institution and transferred after the institution discontinued its football program. During the spring of 1993, he successfully completed five credit hours at the certifying institution and completed an additional seven credit hours during the summer. The institution requested permission to count four hours as "regular" academic hours to meet 14.5.4.1. In denying the request, the subcommittee noted the weak nature of the student-athlete's postsecondary academic record and that, during the spring of 1992, he had failed two regular classes and withdrew from a third, which contributed to his academic predicament.

■ Approved the application of a member institution on behalf of a student-athlete who was a transfer student from a community college. He initially enrolled at the certifying institution in the spring of 1991 and successfully completed 12 hours. During the 1991-92 academic year, he successfully completed 24 credit hours. However, in 1992-93, he completed only seven hours during the fall term and then withdrew during the spring term due to back surgery. The institution requested permission to count two hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student-athlete had been denied the opportunity to make up the deficit hours during the spring term due to his back surgery and that only two additional hours were required, in addition to his other summer work, in order to render him eligible for the fall of 1993.

■ Approved the application of a member institution on behalf of a student-athlete who, during his six terms of attendance at the certifying institution, had successfully completed the required 72 satisfactory-progress hours. However, during the 1992-93 academic year, the distribution of these hours was problematic inasmuch as he earned only 14 of the necessary 20 hours during the "regular" academic year. The institution believed that 75 percent of all satisfactory-progress hours had to be earned during the "regular" academic year, not just the hours earned during and after the 1992-93 academic year, and misadvised the student-athlete. The institution requested permission to count one hour as a "regular" academic hour to meet 14.5.4.1. In approving the request, the subcommittee noted the institution's confusion regarding the application of the rule, and the fact that the student had fulfilled nearly 82 percent of his total satisfactory-progress hours during the "regular" academic year. It also noted that a waiver application will not be approved automatically simply because a student-athlete is just one hour short of meeting the provisions of 14.5.4.1.

■ Denied the application of a member institution on behalf of a student-athlete who was required to enroll in a remedial English class before enrollment in freshman English due to an institutional policy at the certifying institution. During the 1991-92 academic year, he successfully completed 24 hours. In 1992-93, he successfully completed only 20 credit hours, three of which were remedial English, which were not countable. The institution requested permission to count one hour as a "regular" academic hour to meet 14.5.4.1. In denying the request, the subcommittee noted the weak nature of the student-athlete's postsecondary academic record, and that he had been placed in this position partly as a result of institutional policy.

■ Approved the application of a member institution on behalf of a student-athlete who initially enrolled at the certifying institution in the fall of 1990 and, during the following two academic years, successfully completed 48 credit hours. In 1992-93, he successfully completed 15 credit hours during the "regular" academic year,

See **Waivers,** page 15 ▶

■ Interpretations Committee minutes

Conference No. 14 October 7, 1993

Acting for the NCAA Council, the Interpretations Committee issued the following interpretations:

Institutional promotion/commercial locations

1. Sale of institutional promotional items at commercial locations. Institutional promotional items (other than highlight films or media guides) that include the names or pictures of student-athletes with remaining eligibility may be sold only through institutionally controlled (owned and operated) outlets. Thus, it is not permissible for such items to be sold at a noninstitutional commercial establishment, even if an institutional employee is selling such items and/or the institution is receiving any or all revenue from the sale of such items. [References: NCAA Bylaws 12.5.1.1-(g) (institutional, charitable, educational or nonprofit promotions); 12.5.1.1.1 (promotions involving commercial locations/sponsors); Council 10/8/90, Item No. 11-b, and IC 11/29/90, Item No. 4]

Employment/undergraduate coach

2. Employment of undergraduate assistant coach in athletics department (Division I). A student-athlete who is employed as an institution's undergraduate assistant coach, in accordance with 11.02.5, may not receive compensation from employment in the institution's athletics department that exceeds the value of a full grant (i.e., tuition and fees, room and board, books). The committee noted that an undergraduate assistant coach is permitted to receive compensation from employment outside the institution's athletics department without including such compensation in the individual's full grant-in-aid limitations. [References: 11.02.5 (coach, undergraduate assistant) and 15.02.3.5 (exempted employment earnings)]

Division I-A football/tickets

3. Use of tickets sold to booster organization to meet Division I-A football criteria (Division I). Game tickets sold to an institution's booster organization at a "regularly established price" as set forth in 20.9.6.3.5.1 may be utilized to meet the minimum Division I-A football-attendance requirements only if such tickets are used for admission. [References: 20.9.6.3.5 (counting attendance) and 20.9.6.3.5.1 (minimum price of counted tickets)]

■ Bylaw 30 revisions

Pursuant to NCAA Constitution 4.1.3-(g) and 5.2.3.1, the NCAA Administrative Committee and the NCAA Council have approved the following administrative regulations to implement policy in a manner not inconsistent with provisions of the constitution or bylaws. Following Council approval, the revisions are published in The NCAA News. Bold type indicates new wording; italicized type indicates wording removed. Page numbers refer to the 1993-94 NCAA Manual.

NO. 1 EVALUATIONS—DIVISION I WOMEN'S BASKETBALL

Intent: To permit evaluations during the July and November evaluation periods in the state of North Dakota.

Bylaws: Amend 30.10.2, pages 385-386, as follows:

[Division I only]

"30.10.2 Basketball, Division I Women's. The following contact and evaluation periods shall apply to women's basketball in Division I:

[30.10.2-(a) through 30.10.2-(s) unchanged.]

"(t) In **the state of North Dakota and in** classifications A and AA in the state of Virginia, evaluations shall be permissible only between July 8 and July 31 and between November 2 and November 22."

[Remainder of 30.10.2 unchanged.]

Source: NCAA Administrative Committee (Recruiting Committee).

Effective Date: Immediately.

NO. 2 DEAD PERIODS—DIVISION I SOFTBALL

Intent: To establish the period surrounding the national convention of the National Softball Coaches Association as a dead period.

Bylaws: Amend 30.10.7.4, page 388, as follows:

[Division I only]

"30.10.7.4 Softball, Division I Women—Tuesday prior to the National Collegiate Division I Women's Softball Championship game to noon on the day after the game, **and the period from 12:01 a.m. on the day of registration for the national convention of the National Softball Coaches Association to 12:01 a.m. on the day after adjournment of the convention.**"

Source: NCAA Administrative Committee (Recruiting Committee).

Effective Date: Immediately.

NO. 3 POSTSEASON FOOTBALL

Intent: To specify that a "deserving winning team," for purposes of eligibility for a certified postseason football contest, must have more wins than losses; to affirm that ties do not count in determining a team's won-lost record, and to permit the Council to waive the six-victory requirement to enable a conference champion to participate in a "closed" postseason bowl game when scheduled contractually to participate in the game.

A. Bylaws: Amend 30.9.2, page 380, as follows:

[Division I-A football only]

"30.9.2 Contest Status. A contest shall be certified only if it serves the purpose of providing a national contest between deserving winning teams. Beginning with the 1991-92 academic year, a 'deserving winning team' shall be defined as one that has won a minimum of six games against Division I-A opponents **and that has more wins than losses. Tie games do not count in determining a team's won-lost record.**"

B. Bylaws: Amend 30.9.2 by adding new 30.9.2.1, page 384, as follows:

[Division I-A football only.]

"**30.9.2.1 Waiver for Closed Bowl Games. The NCAA Council, by a two-thirds majority of its members present and voting, or a committee designated by the Council, may approve a waiver of the six-victory requirement to enable a conference champion to participate in a closed bowl game (i.e., one in which participation by both teams is determined by their conferences, not a sponsoring agency) when the conference champion is scheduled contractually to participate in the game.**"

Source: NCAA Council (Special Events Committee).

Effective Date: Immediately.

NO. 4 SUMMER BASKETBALL CAMP CERTIFICATION

Intent: To eliminate the requirement that no Division I campuses may be utilized by certified, noninstitutional basketball camps.

Bylaws: Amend 30.15, page 391, as follows:

[Division I only]

"30.15 SUMMER BASKETBALL CAMP CERTIFICATION

"In order for a summer basketball camp to be certified, a certification application form must be submitted each year to the NCAA national office not later than April 1. A camp review form for each camp also must be submitted to the NCAA national office not later than October 1 subsequent to the camp sessions. The following criteria must be met by each camp in order to be certified:

"*(a) No Division I campuses may be utilized for noninstitutional basketball camps,*"

[30.15-(b) through 30.15-(f), relettered as 30.15-(a) through 30.15-(e), unchanged.]

Source: NCAA Council (Division I Steering Committee).

Effective Date: Immediately.

■ Constitution 5.4.1.1.1 modifications

Pursuant to Constitution 5.4.1.1.1, the NCAA Council and the NCAA Administrative Committee have determined that the following proposals are consistent with the intent of the membership in adopting the original legislation and that sufficient documentation and testimony exists to establish clearly that the original wording of the legislation was inconsistent with that intent. Proposals that receive the support of a two-thirds majority of the Council present and voting shall be effective immediately, published in The NCAA News and submitted by the Council as legislation at the 1994 NCAA Convention. Bold type indicates new wording. Page numbers refer to the 1993-94 NCAA Manual.

NO. 1 RESTRICTED-EARNINGS COACH

Intent: To specify that the compensation limitations applicable to a restricted-earnings coach remain applicable during a period in which the staff member is not actually under contract to the institution; that compensation paid to the spouse of a restricted-earnings coach from the sources set forth in NCAA Bylaws 11.02.3-(a) and 11.02.3-(b) shall be included in the compensation limitations set forth in those sections, and that an institution may not alternate individuals between a restricted-earnings coaching position and the positions of head or assistant coach.

Bylaws: Amend 11.02.3 by adding new 11.02.3.1, page 47, renumbering subsequent sections, as follows:

[Division I only]

"**11.02.3.1 Additional Regulations. The following additional regulations shall apply to a restricted-earnings coach:**

"**(a) If a restricted-earnings coach is rehired by the same institution during the next succeeding academic year, the compensation limitations shall be applicable to earnings during any interim period prior to rehiring even though the coach was not then under contract;**

"**(b) Compensation paid to the spouse of a restricted-earnings coach from the sources set forth in 11.02.3-(a) and (b) shall be counted as compensation paid to the restricted-earnings coach and shall be subject to the compensation limitations set forth in those paragraphs, and**

"**(c) An individual may not alternate between a restricted-earnings position and the position of head or assistant coach at an institution.**"

Source: NCAA Council (Division I Steering Committee).

Effective Date: Immediately.

NO. 2 OFFICIAL VISIT—ACADEMIC REQUIREMENTS

Intent: To permit an institution to use information provided by the NCAA Initial-Eligibility Clearinghouse to determine whether a prospective student-athlete fulfills the academic requirements for an official visit specified in 13.7.1.2.3.

Bylaws: Amend 13.7.1.2.3 by adding new 13.7.1.2.3.3, page 94, as follows:

[Federated provision,
Divisions I and II, divided vote]

"**13.7.1.2.3.3 Initial-Eligibility Clearinghouse. A prospect's fulfillment of these academic requirements may be certified by an initial-eligibility clearinghouse approved by the Council.**"

Source: NCAA Council (Special Committee to Oversee Implementation of the NCAA Initial-Eligibility Clearinghouse).

Effective Date: Immediately.

■ Noncontroversial legislative proposals

Pursuant to NCAA Constitution 4.1.3-(f) and 5.3.1.1.1, the NCAA Council has determined that the following proposals are noncontroversial and necessary to promote the normal and orderly administration of the Association's legislation. Proposals that receive the support of a three-fourths majority of the Council present and voting shall be effective immediately, published in The NCAA News and submitted by the Council as legislation at the 1994 NCAA Convention. Bold type indicates new wording. Page numbers refer to the 1993-94 NCAA Manual.

NO. 1 COMMITTEE REVIEW DEADLINE

Intent: To specify that only legislative proposals submitted by the membership are subject to the committee-review process, and to specify that October 7 is the deadline for a committee to complete its obligation to evaluate proposed legislation forwarded to it by the NCAA Administrative Committee.

Constitution: Amend 5.3.6, page 35, as follows

[Dominant provision,
all divisions, common vote]

"5.3.6 Committee Review. All legislative proposals **submitted by the membership per 5.3.3.1.1** shall be evaluated by an appropriate NCAA committee before they can be included on the agenda for an NCAA Convention. Such evaluation may involve a position of support or opposition and/or a suggestion of an alternative proposal by the committee. **The committee shall complete its evaluation not later than October 7.** The committee position, if any, shall not prevent the membership from voting on the proposal at the next Convention, provided all appropriate submission deadlines have been met."

[Remainder of 5.3.6 unchanged.]

Source: NCAA Council (Legislative Review Committee).

Effective Date: Immediately.

Lawsuit

Federal judge says dismissed coach failed to allege damaging public actions

▶ Continued from page 3

Alioto, said he would be able to show damaging public statements by former California athletics director Robert L. Bockrath, now at Texas Tech University, and by vice-chancellor Daniel Boggan.

"Bockrath was popping off that he (Campanelli) couldn't handle the kids. That's the worst thing you can say about a coach," Alioto told The Associated Press. "Also, you fire somebody in the middle of a successful season. That carries the assumption that you're being fired for reason other than success as a coach."

Campanelli was hired in 1986 and led the team to the NCAA Division I Men's Basketball Championship once and to the National Invitation Tournament three times. When Bockrath fired him in February, the highly touted Bears had a 10-7 record and were 4-5 in the Pacific-10 Conference.

The team resurged under Campanelli's successor, first-time head coach Todd Bozeman, winning 10 straight games and reaching the Sweet Sixteen in the NCAA tournament with an upset over defending champion Duke University before losing.

Wanted

More institutions and conferences are urged to add student-athlete advisory committees

▶ Continued from page 1

Presidents Commission's strategic plan, and the special committee to review the topic has been charged by the Commission to study anything affecting the welfare of student-athletes.

In response to that charge, the committee identified four subject areas for study: student-athlete involvement and empowerment, student-athlete/coach relationships, student-athlete life, and appreciation for diversity.

"The way you get to the issue of student-athlete welfare and access is to get in touch with the student-athlete," Justus said. "A student-athlete committee does that."

Division differences

The survey does reveal some differences among divisions. Division I institutions generally have more established student-athlete committees, more student-athletes are included on the committees, and the committees have more decision-making ability. In fact, although many of the institutions from all divisions (69.8 percent) reported that a student-athlete representative does have a chance to meet with an athletics department administrator, only Division I-A indicated that a majority (50.8) of their student-athlete committees have decision-making authority, usually on matters where they can govern themselves (for example, hours in the weight room). All other divisions reported the role of their student-athlete committees to be mostly advisory in nature.

"You want a vehicle on campus that allows student-athletes to talk about issues comfortably without fear of reprimand," Justus said.

To help with their networking efforts, the Student-Athlete Advisory Committee has sent letters to each institution's contact person—all of whom were identified in the survey—asking for information on the status of their committees and whether they can be used as references for other schools wanting to start committees on their campuses.

Waivers

▶ Continued from page 13

three hours during the institution's "interterm" and six hours during the summer. The "interterm" hours were not countable, inasmuch as the term began after spring commencement. Based in part on a prior NCAA staff interpretation, the institution believed that hours earned during the "interterm" could be counted as part of the "traditional" academic year for satisfactory progress. The institution requested permission to count three hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student had acted in "good faith" and had been advised incorrectly with regard to use of the "interterm" credit hours.

■ Approved the application of a member institution on behalf of a student-athlete who transferred to the certifying institution in the fall of 1991. During the 1991-92 academic year, he successfully completed 26 credit hours with a 1.813 grade-point average. He was suspended in the fall of 1992 because he did not meet the institution's minimum grade-point average requirements. The student-athlete reentered the institution in the spring of 1993 and successfully completed 16 hours. He then enrolled in the first summer session of 1993, but withdrew due to the death of his father, which was followed within 10 days by the death of his mother. However, he enrolled in the second summer session of 1993 and successfully completed six credit hours, giving him a total of 22 credit hours for the 1992-93 academic year and 48 hours for the two-year period at the institution. The institution requested permission to count .5 hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student-athlete had made a "good-faith" effort upon returning to the institution in the spring of 1993 by successfully completing 16 credit hours and then, after the trauma of the death of his parents, still successfully completed an additional six hours.

■ Denied the application of a member institution on behalf of a student-athlete who transferred from a two-year college to the certifying institution during the spring quarter of 1993 and successfully completed nine credit hours. However, of the nine hours, only seven could be counted toward satisfactory progress. He successfully completed five additional credit hours during the summer of 1993. The institution requested permission to count two hours as "regular" academic hours to meet 14.5.4.1. In denying the request, the subcommittee noted that the student-athlete had failed a five-credit-hour academic course during the spring quarter, which contributed to his academic predicament.

■ Approved the application of a member institution on behalf of a student-athlete who initially enrolled at the certifying institution in the fall of 1990 and, during the following two academic years, successfully completed 48 credit hours. In 1992-93, he successfully completed 15 credit hours during the "regular" academic year, three hours during the institution's "interterm" and six hours during the summer. The "interterm" hours were not countable, inasmuch as the term began after spring commencement. Based in part on a prior NCAA staff interpretation, the institution believed that hours earned during the "interterm" could be counted as part of the "traditional" academic year for satisfactory progress. The institution requested permission to count three hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student had acted in "good faith" and had been advised incorrectly with regard to use of the "interterm" credit hours.

■ Denied the application of a member institution on behalf of a student-athlete who had successfully completed 48 credit hours during the 1990-91 and 1991-92 academic years at the certifying institution. During the 1992-93 academic year, he successfully completed 18 credit hours; however, three hours were a repeated course and would not count toward satisfactory progress. The student-athlete did not realize the repeated course was the same course as one previously taken, as it had a different instructor and used a different textbook. He completed an additional nine credit hours during the summer. The institution requested permission to count three hours as "regular" academic hours to meet 14.5.4.1. In denying the request, the subcommittee noted that the institution and the student-athlete should be responsible for making sure that course work taken will meet satisfactory-progress requirements and that an unnecessary repeated course is not taken inadvertently.

■ Reconsidered and approved the application of a member institution on behalf of a student-athlete who initially enrolled at the certifying institution in the summer of 1992 and earned two credit hours. During the fall of 1992, he earned 12 credit hours. In the spring of 1993, he was placed on disciplinary suspension and withdrew from the institution. During the summer of 1993, he satisfactorily completed 11 credit hours, including a three-hour correspondence course. The institution requested permission to count 4.5 hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student-athlete had shown a "good-faith" effort with regard to his academic progress by successfully completing 11 hours during the summer and that, during the fall of 1992, he successfully completed 12 hours and also endured surgery.

■ Approved the application of a member institution on behalf of a student-athlete who initially enrolled at the certifying institution in the fall of 1992. During the "regular" academic year of 1992-93, he completed 18 credit hours, only 15 of which would count toward satisfactory progress. The student-athlete had selected a major at the beginning of his freshman year that required that a grade of C or better must be earned in all course work. He earned a grade of D in a three-hour course required by his chosen major. The student-athlete successfully completed nine hours during the summer of 1993, including a repeat of the major course. The institution requested permission to count three hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student-athlete had progressed well academically in other course work and was not required to declare a major as a freshman.

■ Denied the application of a member institution on behalf of a student-athlete who had initially enrolled at the certifying institution during the fall of 1991. He successfully completed 24 credit hours during the 1991-92 academic year. In 1992-93, he successfully completed 16 credit hours during the "regular" academic year and eight hours during the summer. The institution requested permission to count two hours as "regular" academic hours to meet 14.5.4.1. In denying the request, the subcommittee noted that the student-athlete had failed class work during the "regular" academic year, which contributed significantly to his academic predicament.

■ Denied the application of a member institution on behalf of a student-athlete who had transferred to the certifying institution in the fall of 1992. During the 1992-93 academic year, he successfully completed 15 credit hours in the "regular" academic year and an additional nine hours during the summer. The institution requested permission to count three hours as "regular" academic hours to meet 14.5.4.1. In denying the request, the subcommittee noted the weak nature of the student-athlete's postsecondary academic record and that he had failed three classes and withdrew from a fourth during the "regular" academic year, which contributed significantly to his academic predicament.

■ Approved the application of a member institution on behalf of a student-athlete who had initially enrolled at the certifying institution during the fall of 1991. During the 1991-92 academic year, she successfully completed 20 credit hours. During the 1992-93 "regular" academic year, the student-athlete did not attend the institution; rather, she participated with the Canadian National Team. During the summer of 1993, she completed an additional five credit hours. The institution requested permission to count four hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that, since the student-athlete was not in attendance at the institution during the 1992-93 academic year, she would not have been aware of the implementation of the "75/25" rule.

■ Approved the application of a member institution on behalf of a student-athlete who had initially enrolled at the certifying institution in the fall of 1992. During the 1992-93 academic year, he successfully completed 16 credit hours, plus an additional three hours during the institution's "interterm" for a total of 19 credit hours. During the summer of 1993, he earned an additional six hours of transfer credit. The "interterm" hours were not countable, inasmuch as the term began after spring commencement. Based in part on a prior NCAA staff interpretation, the institution believed that hours earned during the "interterm" could be counted as part of the "traditional" academic year for satisfactory progress. The institution requested permission to count two hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student-athlete had acted in "good faith" and had been advised incorrectly with regard to use of the "interterm" credit hours.

■ Approved the application of a member institution on behalf of a student-athlete who initially enrolled at the certifying institution in the spring of 1992 after transferring from a two-year college. During his first semester at the institution, his father died and his mother became very ill; however, he still managed to successfully complete nine credit hours. During the fall of 1992, he attempted to change his engineering major, but was precluded from doing so due to an institutional policy related to minimum grade-point average requirements. He successfully completed six credit hours during that term. In the spring of 1993, as his mother's health improved, the student-athlete successfully completed nine credit hours. He subsequently completed 12 hours during the summer of 1993, giving him a total of 27 hours for the 1992-93 academic year. The institution requested permission to count three of the hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student-athlete had suffered considerable family hardship and that he still had shown determination and a "good-faith" effort with regard to his academic progress.

■ Approved the application of a member institution on behalf of a student-athlete who initially enrolled at the certifying institution in the fall of 1991. During the 1991-92 academic year, he successfully completed 26 credit hours. During the "regular" academic year of 1992-93, he successfully completed 18 hours. He then successfully completed nine hours during the summer of 1993, including a repeated course which was taken to improve a grade of D earned in the spring of 1993. The institution's computer procedures for posting the grade automatically removed the credits from the spring of 1993 for the repeated course. The institution requested a waiver to permit the student-athlete to count three hours as "regular" academic hours to meet 14.5.4.1. In approving the request, the subcommittee noted that the student-athlete had repeated the course in an effort to obtain a better grade and to increase his grade-point average. It also noted that the repeated course was a general elective and was not required in the student-athlete's major.

Kentucky senator questions football bowl coalition

U. S. Sen. Mitch McConnell sent a letter October 26 to the U.S. Department of Justice asking for a review of the college football bowl coalition, complaining that the alliance shuts out independent schools—including the University of Louisville in his home state of Kentucky—from New Year's Day games.

"What I want is for any team in America to be able to benefit, whether they're in a conference or out of a conference," McConnell told The Associated Press. "I hope they (the Justice Department) will reach the conclusion that it's not fair for any team in America to be punished for success."

Louisville coach Howard Schnellenberger, whose nationally ranked team has lost only one game this season, said he shares McConnell's "concern about the fairness of the current bowl setup."

"Many coaches, players, fans and even some bowl committees feel the same way," Schnellenberger said. "To exclude teams from the chance to play in the very best January 1 bowls before even a single game is played is of concern to all of us."

McConnell said his request to have the bowl coalition repealed is not an instance of government overstepping its bounds by intervening in collegiate athletics.

"The antitrust laws are designed to allow competition to blossom in our country," McConnell said. "It's profree enterprise, not the opposite."

In a letter to Ann Bingaman, the assistant attorney general overseeing the department's antitrust division, McConnell called the bowl coalition the "ghettoization" of independent teams shut out of the major bowls. He said the bowl coalition unfairly denies independents financial rewards and national recognition from appearing in a major bowl.

"We're not just talking about prestige," he said. "We're talking about money. Television contracts, recruiting. How could you possibly recruit if you said to your recruits, 'We may never get a major bowl, even if we win 11 games.' "

Rick Baker, executive director of the Cotton Bowl and the bowl coalition, said the bowl alliance does not violate antitrust laws.

"Speaking for the college football bowls that are a party to the coalition agreement that is the subject of Sen. McConnell's complaints, we are confident that this agreement does not violate the Sherman Act," Baker said in a statement.

A coalition was formed two years ago between five conferences (Atlantic Coast, Big East, Big Eight, Southeastern and Southwest) and independent University of Notre Dame. The alliance guarantees invitations to schools from those conferences to all the major bowls, including the Cotton, Fiesta, Orange and Sugar on New Year's Day.

The Rose Bowl has a separate alliance between the Big Ten and the Pacific-10 Conferences.

In the four-page letter, McConnell says the alliances between conferences and postseason games—including the bowl coalition—amount to an "unreasonable restraint of trade in violation

NCAA Record

CHIEF EXECUTIVE OFFICERS

Leonard E. Plachta, interim president at Central Michigan, appointed president there...**Paul E. Torgersen**, acting dean of engineering at Virginia Tech, named interim president at the institution.

SENIOR WOMAN ADMINISTRATOR

Wendee Saintsing, head women's basketball and volleyball coach at Barton, designated as senior woman administrator at the school.

ASSOCIATE DIRECTOR OF ATHLETICS

Ralph Bayard, associate executive director of the Washington Interscholastic Activities Association, named senior associate AD for compliance and internal operations at Washington.

ASSISTANT DIRECTOR OF ATHLETICS

Ron Grahame, a former assistant men's ice hockey coach at Denver, named assistant athletics director for operations and compliance at the institution. He replaces **Mike Thomas**, who accepted the post of assistant AD at Virginia.

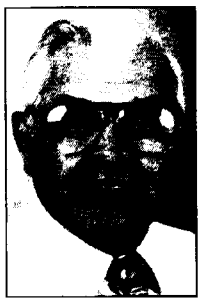

COACHES

Baseball—**Tom Shaw**, an admissions representative at Olivet for the past three years and an assistant baseball coach there from 1988 to 1992, named head coach at the institution. He also will serve as women's athletics recruiter...**Andrew Troiani** hired as head coach at Emerson.

Baseball assistant—**Dave Jarvis**, who previously served as head coach at Three Rivers Community College, named full-time assistant at Murray State.

Texas-Pan American selects assistant AD

Oton "Tony" Guerrero Jr. has given up his duties as golf coach at Texas-Pan American to become assistant athletics director at the institution. Guerrero, who has coached golf at the school for 24 years, will be responsible for promotions, marketing, scheduling and contracts, with additional duties in public relations.

Guerrero

Guerrero is a 1951 graduate of Texas A&M, where he starred in golf. He then spent 14 years as an elementary school principal in Mission, Texas. He served four years in the U.S. Navy as an aerial gunner and later as a gunnery instructor during World War II.

Guerrero is a member of the All-American Intercollegiate Golf Coaches hall of fame.

Men's basketball—**Larry Hunter**, men's basketball coach at Ohio, received a contract extension through the 1996-97 season.

Men's basketball assistants—**Alvin Brown**, a member of the basketball team at San Francisco for the past two years, appointed administrative assistant for the program there...**Doug Fraser**, an assistant coach at Bates last year, named to a similar position at Keene State...**Chris Hill** and **Steve Hillman** joined the coaching staff at Luther...**Fred Litzenberger**, who spent the past two years at Miami (Florida), named associate head coach at Northwestern State (Louisiana)...**Kevin Reynolds**, a graduate assistant coach for the past two seasons at Bloomsburg, named assistant coach at Indiana (Pennsylvania)...West Virginia's **Gary McPherson** given new duties as director of athletics development at the school.

Women's basketball—**Joseph Walsh** selected as coach at Emerson.

Women's basketball assistants—**Mindy Callender** appointed assistant coach at Susquehanna, succeeding **Wendee Booher**, who was on the staff last season...**Kate Hellus**, a former player at Keene State, named at her alma mater...**Cynthia Holmes**, an assistant girls' basketball coach for the past five years at Hubbard-Radcliffe High School in Iowa, named assistant coach at Luther...**Lisa Liberty** and **Deborah Walsh** named at Emerson...**Kristen McDonald** chosen as assistant coach at Massachusetts-Boston after concluding a four-year playing career at Amherst.

Men's ice hockey assistant—**Pat Kelleher**, assistant general manager and assistant coach of the Rhode Island Sharks Junior Hockey Club in North Smithfield, Rhode Island, named assistant coach at Massachusetts-Boston.

Men's and women's skiing—**Maura Burrous**, who has spent the past three years as a ski instructor at Bradford (Massachusetts) Ski Area, named Alpine ski coach at Alfred.

Men's soccer assistant—**Harold Jean-Baptiste**, junior varsity coach at Boston College High School, named men's assistant at Massachusetts-Boston.

Women's softball assistant—**Leslie Grimes** named assistant coach at Central Michigan, where she played from 1989 to 1992.

Women's swimming—**Mitch Ivey** dismissed as women's coach at Florida. Ivey came to Florida in 1990 and led the Lady Gators to Southeastern Conference titles in 1991, 1992 and 1993.

Men's and women's swimming assistant—**Scott Kimmelman**, a graduate as-

11. Ferris St. (6-0-2)	40
12. Wayne St. (Neb.) (7-0)	34
13. Angelo St. (6-2)	31
14. Edinboro (6-1)	29
15. Carson-Newman (5-1-1)	22
16. Lenoir-Rhyne (6-1)	15
17. Ashland (6-2)	13
18. Cal Poly SLO (5-2)	12½
19. Northern Colo. (6-2)	11
20. Abilene Christian (6-2)	5
20. Valdosta St. (6-2)	5

Division III Football

The top six NCAA Division III football teams in each region through October 24, with records:

East: 1. Buffalo State, 7-0; 2. Rowan, 5-1; 3. Union (New York), 7-0; 4. Montclair State, 4-2; 5. Brockport State, 6-1; 6. Kean, 4-2.

North: 1. Mount Union, 7-0; 2. Albion, 7-0; 3. Defiance, 8-0; 4. Anderson, 7-0; 5. Allegheny, 6-1; 6. Wheaton (Illinois), 5-1.

South: 1. Washington and Jefferson, 7-0; 2. Frostburg State, 7-0; 3. Wilkes, 7-0; 4. Dickinson, 6-1; 5. Moravian, 5-2; 6. Emory and Henry, 5-2.

West: 1. Wisconsin-La Crosse, 7-0; 2. St. John's (Minnesota), 7-0; 3. Coe, 7-0; 4. Wartburg, 6-1; 5. Central (Iowa), 6-1; 6. Colorado College, 6-0.

Division III Women's Tennis

The top NCAA Division III women's tennis teams in the South region through October 27 as listed by the Intercollegiate Tennis Association, based on fall play:

South: 1. Washington and Lee, 2. Mary Washington, 3. Emory, 4. Sewanee (University of the South), 5. Rhodes, 6. Methodist, 7. Christopher Newport, 8. Meredith, 9. Agnes Scott, 10. Oglethorpe, 11. Marymount (Virginia).

Division I Women's Volleyball

The Tachikara top 25 NCAA Division I women's volleyball teams through October 26 as selected by the American Volleyball Coaches Association, with records in parentheses and points:

1. UCLA (17-0)	1,250
2. Texas (17-2)	1,159
3. Long Beach St. (18-2)	1,147
4. Brigham Young (16-1)	1,087
5. UC Santa Barb. (19-2)	1,056
6. Stanford (14-5)	980
7. Penn St. (19-2)	944
8. Pacific (Cal.) (12-5)	893
9. Southern Cal (14-4)	884
10. Colorado (17-4)	787
11. Notre Dame (17-3)	685
12. Nebraska (15-3)	640
13. Georgia (20-1)	625
14. Kentucky (21-2)	615
15. Ohio St. (15-3)	581
16. Arizona St. (13-4)	540
17. Florida (19-2)	489
18. Arizona (10-7)	362
19. Santa Clara (17-5)	281
20. Colorado St. (16-4)	261
21. Washington St. (14-5)	248
22. Duke (18-2)	170
23. Florida State (17-4)	161
24. Illinois (11-7)	130
25. Hawaii (13-8)	106

Division II Women's Volleyball

The Tachikara top 25 NCAA Division II women's volleyball teams through October 26 as selected by the American Volleyball Coaches Association, with records in parentheses and points:

1. Northern Mich. (26-0)	625
2. Cal St. Bakersfield (20-1)	600
3. Portland St. (22-2)	575
4. Metropolitan St. (21-2)	548
5. North Dak. St. (17-5)	517
6. Northern Colo. (22-3)	493
7. UC Davis (15-4)	463
8. Cal St. Los Angeles (16-5)	432
9. UC Riverside (14-6)	419
10. Fla. Southern (21-2)	405
11. Cal Poly Pomona (15-7)	371
12. Nebraska-Omaha (16-5)	345
13. Grand Canyon (20-3)	295
14. Cal St. Chico (17-10)	273
15. Mankato St. (18-5)	254
16. Tampa (19-3)	244
17. North Fla. (23-2)	225
18. Michigan Tech (21-5)	210
19. Sonoma St. (16-5)	174
20. Central Mo. St. (27-7)	142
21. Neb.-Kearney (27-7)	133
22. Regis (Colo.) (13-10)	111
23. St. Cloud St. (12-9)	67
24. Augustana (S.D.) (18-10)	60

Division III Women's Volleyball

The Tachikara top 15 NCAA Division III women's volleyball teams through October 26 as selected by the American Volleyball Coaches Association, with records in parentheses and points:

1. Washington (Mo.) (32-1)	299
2. UC San Diego (16-9)	278
3. Juniata (30-3)	262
4. Thomas More (36-6)	241
5. Wis.-Whitewater (25-6)	204
6. John Carroll (29-3)	197
7. Rochester Inst. (28-6)	177
8. St. Benedict (21-6)	156
9. Trinity (Tex.) (19-5)	120
10. St. Olaf (26-4)	90
11. Wis.-Oshkosh (27-6)	83
12. Stony Brook (23-7)	70
13. Wittenberg (27-4)	65
14. Ithaca (29-10)	41
15. Wis.-Eau Claire (23-7)	36

Men's Water Polo

The top 20 NCAA men's water polo teams through October 26 as selected by the American Water Polo Coaches Association, with points:

1. Stanford, 100; 2. Southern California, 93; 3. California, 92; 4. Pacific (California), 84; 5. UC Irvine, 79; 6. UCLA, 77; 7. Pepperdine, 68; 8. UC Santa Barbara, 67; 9. UC San Diego, 60; 10. Navy, 53; 11. Long Beach State, 52; 12. Air Force, 45; 13. Massachusetts, 40; 14. Princeton, 35; 15. Brown, 30; 16. UC Davis, 20; 17. Arkansas-Little Rock, 18; 18. Slippery Rock, 15; 19. Redlands, 11; 20. Bucknell, 10.

NCAA Record

▶ Continued from page 16

sistant coach at Tennessee last year, named assistant coach at Indian River Community College.

Men's and women's tennis—**Dan Holden**, men's and women's coach at Southern Illinois-Edwardsville since 1990, named head coach at Southwestern Louisiana.

Men's and women's track and field assistant—**Kevin Donner** appointed assistant women's coach at Central Michigan... **James Lott** hired as an assistant track coach at Murray State. Lott was a three-time NCAA champion in the high jump.

Wrestling—**Rick Bouchard** appointed at Plymouth State, where he competed in wrestling and football in the early 1970s.

Wrestling assistants—**Rick Samuelson** named assistant coach at Luther after serving most recently as head coach at Waukon High School in Iowa... **Matt Schwenk** hired as an assistant at Susquehanna.

STAFF

Assistant to the dean—**Todd Markel** hired as assistant to the dean for NCAA compliance at Tennessee-Chattanooga.

Development director—**Gary McPherson**, a longtime assistant basketball coach at West Virginia, named director of athletics development at the institution, replacing **Rex Foster**, who resigned to accept a position with St. Joseph's Hospital in Parkersburg, West Virginia. McPherson has served on the men's basketball staff at West Virginia since 1974.

Women's athletics recruiter—**Tom Shaw**, an admissions representative at Olivet for the past three years and an assistant baseball coach there from 1988 to 1992, appointed women's athletics recruiter there. He also will serve as head baseball coach at the institution.

Notables

John Eiler and **John Squires** selected as the 22nd and 23rd inductees of the National Soccer Coaches Association of America hall of fame. Eiler coached at Slippery Rock from 1946 to 1955 and at East Stroudsburg from 1956 to 1965. Squires was head coach at Connecticut from 1936 to 1969... **Judi Garman**, who has compiled 905 women's softball coaching victories, will be inducted into the National Softball Coaches Association hall of fame. Garman has spent 14 of her 22-year career as coach at Cal State Fullerton.

Semifinalists for the 1993 Butkus Award, presented annually to the nation's outstanding college football linebacker, are **Trev Alberts**, Nebraska; **Aubrey Beavers**, Oklahoma; **Derrick Brooks**, Florida State; **Keith Burns**, Oklahoma State; **Mitch Davis**, Georgia; **DeWayne Dotson**, Mississippi; **Sean Harris**, Arizona; **Ryan McCoy**, Houston; **Jamir Miller**, UCLA; **Jerrot Williard**, California, and **Ron Woolfork**, Colorado.

Deaths

Earl Banks, former athletics director and head football coach at Morgan State, died October 27 in Baltimore after apparently suffering a heart attack while driving. He was 69. Banks was head coach at Morgan State for 10 years beginning in 1960 and was athletics director there from 1970 to 1983. Last year, Banks was inducted into the College Football Hall of Fame.

Casimir Myslinski, athletics director at Pittsburgh from 1968 to 1982, died October 26 of heart failure in South Fayette Township, Pennsylvania. He was 76. Myslinski headed the school's athletics department when its football team won the 1976 wire-service national championship. An all-American center on the football team at Army in 1943, Myslinski also served as director of physical education at Air Force and Army.

Brackets for soccer to air live

Announcements of the brackets for the NCAA Division I Men's and Women's Soccer Championships will be broadcast live via satellite November 8.

The bracket for the Division I women's championship will be aired at 10 a.m. (Central time). Satellite coordinates for the broadcast, which will originate from the studios of Public Broadcasting System affiliate KCPT-TV in Kansas City, Missouri, are Galaxy 7, Transponder 16 Vertical.

The Division I men's championship bracket will be announced at 3:30 p.m. (Central time) from the same location. That broadcast will use the same satellite coordinates as the women's selection show.

The audio for both shows will be on 6.2 and 6.8.

I volleyball closing in on sellout

More than 8,000 tickets already have been sold for the 1993 NCAA Division I Women's Volleyball Championship December 16 and 18 at the University of Wisconsin, Madison.

The school hopes to become the first championship site to achieve a sellout in the 13-year history of the event.

The seating capacity at the University of Wisconsin Field House is 11,500. Fans have purchased 6,037 tickets, while various groups have reserved 2,200 additional seats.

Wisconsin already has sold enough tickets to set an attendance record for the semifinal matches. The current record for those matches is 7,239, set in Minneapolis in 1988. The championship-final record is 9,107 and the two-day record is 16,346, both set in Minneapolis.

The volleyball championship is the first national championship to be held in Madison since 1960, when Wisconsin played host to NCAA boxing championships. In the past three years, Wisconsin has hosted two Division I Women's Volleyball Championship first-round matches, one of which attracted 11,000 fans.

Bracket

▶ Continued from page 8

of 16 subregional sites, with those sites being determined on selection Sunday.

The women's basketball committee will seed 16 teams nationally instead of eight. The 16 seeded teams will be ranked as Nos. 1 through 4 in each of four regional tournaments. The remaining 48 teams will be distributed throughout the bracket, with geographical considerations being weighed in that process.

In addition, the committee voted to require that in order for a facility to be considered as a regional or championship site, it must be fully operational by December of the year before the committee selects sites for future tournaments.

In requiring a facility to be up and running by December, the committee will be able to conduct more thorough site reviews before making its site selections the next summer.

Other highlights

In other actions at its October 24-26 meeting in Richmond, Virginia, the Division I Women's Basketball Committee:

- Met with representatives from Virginia Commonwealth University, the host school for the 1994 Women's Final Four. Representatives reported to the committee that the event is within a few hundred tickets of a sellout. Richmond Coliseum seats 12,500. It appears set to become the earliest sellout in Women's Final Four history.
- Revised the guarantee necessary to host first- or second-round competition. Schools now must guarantee $3,000 in net receipts in order to be considered as a host for early-round games.
- Extended the "no scratch" policy concerning officials to include all institutional personnel. As a prerequisite for automatic qualification, conferences cannot employ scratch procedures—those that provide school personnel either individually or collectively with direct or indirect authority to hire, retain, affect the assignments of or release any official.
- Eliminated electronic amplification equipment used by some bands during the tournament.
- Considered revisions in the ratings percentage index and agreed to take final action in December.
- Reviewed plans for the Women's Final Four Salute Dinner. The Salute Dinner will be held annually beginning with the 1994 tournament.

Millersville University of Pennsylvania photo

Happy anniversary

Cherie Meiklejohn (left) and Anna Funk Lockey reminisce at the 75th anniversary of women's athletics dinner at Millersville University of Pennsylvania. Meiklejohn, a former all-American in lacrosse and field hockey, had her jersey retired at the ceremonies and became only the second women in Millersville's history to be so honored. Lockey, a 1925 graduate, played basketball at the university.

of the Sherman Act."

Two weeks ago, McConnell said he talked to a friend in Louisville about possible antitrust violations. The senator then discussed the issue with Schnellenberger, Louisville athletics director William C. Olsen and the school's president, Donald C. Swain.

For this year, Louisville has accepted a bid to the Liberty Bowl.

■ The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other purposes relating to the administration of intercollegiate athletics.

Rates: 55 cents per word for general classified advertising (agate type) and $27 per column inch for display classified advertising. (Commercial display advertising also can be purchased elsewhere in the newspaper at $12 per column inch. Commercial display advertising is available only to NCAA corporate sponsors, official licensees and members, or agencies acting on their behalf.)

Deadlines: Orders and copy for The Market are due by noon Central time six days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertisements. Orders and copy will be accepted by mail, fax or telephone.

For more information or to place an ad, call classified advertising at 913/339-1906, ext. 3000, or write NCAA Publishing, 6201 College Boulevard, Overland Park, Kansas 66211-2422, Attention: The Market. To fax an ad, call 913/339-0031.

Positions Available

Athletics Director

Director of Athletics. Monmouth College's Division I athletics program is in the process of doubling its size. Division I-AA nonscholarship football has been added this fall, with women's lacrosse and volleyball to follow immediately. More than 300 athletes are expected next year compared to approximately 160 last year. The college has determined that it, therefore, can no longer require the coach of a major sport to also double as Director of Athletics. At his request, Wayne Szoke has decided to remain with his winning basketball program as head basketball coach. Accordingly, Monmouth College is seeking an athletics administrator who is knowledgeable regarding Division I scholarship and nonscholarship programs. A bachelor's degree is required, a master's preferred along with a minimum of three years comparable experience. In addition, some coaching experience is desirable. Applications will be accepted until November 15, 1993. It is anticipated that the appointed director will begin his/her duties by January 1, 1994. Applicants should forward a resume and cover letter to: Patricia Swannack, Director of Human Resources, Monmouth College, West Long Branch, New Jersey 07764. Monmouth College is an Equal Opportunity/Affirmative Action Employer.

Associate A.D.

Associate Athletics Director—Academic Affairs. Responsibilities: In compliance with NCAA, Southwest Conference, university and athletics department policies and procedures, oversee the development and implementation of programs necessary for successful integration of student-athletes into the college environment and for satisfactory progress toward graduation as well as personal skills, community service and future career enhancements. Serve as liaison with university administration and faculty on academic matters related to the student-athlete. Minimum Qualifications: Master's degree required in counseling, education, human services or related field. Doctorate preferred. Six (6) or more years' experience in a progressively responsible collegiate counseling or admissions position, preferably in a university Division I-A level athletics program. Salary: Commensurate with experience. Full-time position with full university benefits. Closing Date: Review of applications will begin immediately and position will remain open until filled. Women and minorities are encouraged to apply. Process: Send letter of application, current resume and listing of three professional references to: University of Houston, Department of Human Resources, LL, Houston, TX 77204-2770. The University of Houston is an Equal Opportunity/Affirmative Action Employer.

Assistant A.D.

Assistant/Associate Athletics Director. The University of the Pacific invites applicants for the position of Assistant/Associate Director of Athletics/Senior Women's Administrator. Position effective December 1, 1993. Responsibilities include oversight of compliance and eligibility, student athlete services, and academic support; supervision of 12 men's and women's sports; and day-to-day operation of athletics department. Qualifications: Advanced degree preferred, baccalaureate degree required with a minimum of three years of athletics administrative experience, preferably at the Division I level. Qualified applicants should send letter of interest, current resume and three letters of recommendation to: Bob Lee, Director of Athletics, University of the Pacific, 3601 Pacific Avenue, Stockton, CA 95211. Filing Date: November 15, 1993. University of the Pacific is an Affirmative Action/Equal Opportunity Employer.

Athletics Trainer

Athletics Trainer. Hours: 40 hours per week to be arranged; 10 months per year. Salary: Range 10/Step 1; $10.56/hour; $1,830/month; $18,300/annually; excellent benefit package. Definition: Under the direction of the division dean of physical education/athletics, the athletics trainer assists in the development and implementation of programs for the prevention of injuries to student athletes, administers first aid and emergency medical care, and administers rehabilitation for injuries. Minimum Qualifications: Bachelor's degree from an accredited institution and certification by an organization recognized by the American Medical Association. Application deadline extended to: Monday, November 15, 1993, at 4 p.m. To request the job announcement and application materials contact: Personnel Office, Room 616, Solano Community College, 4000 Suisun Valley Road, Suisun City, CA 94585. 707/864-7192 (24 hours/day). Equal Opportunity Employer/Affirmative Action Employer.

Facilities

Stanford University is accepting applications for the position of Director, Facilities, Operations & Events. Responsibilities will include: facility operations and maintenance, contract administration and purchasing, budget tracking and analysis, grounds maintenance and supervising the Athletic Corp. Yard staff. Qualifications: Minimum of three years' work experience in facilities/operations and or engineering degree preferred. Previous administrative or organization experience in athletics management preferred. Demonstrated leadership capability in supervising large scale operation required. Must be able to coordinate activities in an environment characterized by divergent interests and heavy pressures. Salary: $3,381 to $4,300 per month. Application deadline: November 19, 1993. Please send resume, cover letter and references to: Kathy Hwa, J931622-VA, Personnel Services, 855 Serra Street, Stanford, CA 94305-6110. Stanford University is an Equal Opportunity Employer committed to a program of Affirmative Action.

Public Relations

Director Of Media Relations. The University of Minnesota is seeking candidates for the position of director of media relations, men's intercollegiate athletics. Qualifications: Bachelor's degree required in journalism or related field with five years of combined experience in sports information, athletics public relations and/or sports media work, exceptional writing and editing ability, knowledge of AP style, expertise in statistical compilation, knowledge of desktop publishing and NCAA rules. Responsibilities: Responsible to the men's athletics director and senior associate director for developing and implementing media/public relations strategies/activities; developing a service-oriented department addressing needs of the media and functioning in support of marketing, sales and fund raising units of the department; functioning specifically as office representative for football and at least one other sport as designated; coordinating details for media coverage of home events; knowing and understanding NCAA, Big Ten Conference and departmental rules and regulations and following those rules; supervising the preparation of editorial content for game programs, media guides and newsletter and coordinating production and design; responsible for preparing and monitoring unit budget and for unit personnel issues; and for performing additional duties as assigned. This is a 12-month, 100% time appointment. Salary commensurate with education and experience. Send a letter of application, resume and names of three references, to be received no later than November 15, 1993, to: Dr. Mark Dienhart, Search Committee Chair, University of Minnesota, 516-15th Avenue S.E., Minneapolis, MN 55455. The University of Minnesota is committed to the policy that all persons shall have equal access to its programs, facilities and employment without regard to race, color, creed, religion, national origin, sex, age, marital status, disability, public assistance status, veteran status or sexual orientation.

Director of Publications: The Texas Rangers are seeking qualified candidates for the position of Director of Publications. Responsibilities will include the coordination of writing, editing and design of Texas Rangers' publications to include game program magazine, yearbook and newsletters; coordinating and promoting sales of Rangers' publications, in-park, on newsstands and through the mail; assisting other departments of Texas Rangers with writing, editing and production of written materials; assisting with public relations and publicity efforts of Texas Rangers, particularly in nonbaseball matters. Qualifications: Minimum of two years' publicity experience with a professional or college sports organization; extensive writing and editing experience; extensive design experience and computer proficiency with Macintosh and PageMaker 5.0 is required. Application Procedure: Please send copy of resume, writing and publications samples, and three letters of reference to: Publications Director Search, c/o John Blake, Texas Rangers, P.O. Box 90111, Arlington, TX 76004. Deadline for receiving applications is Monday, November 15. No phone calls will be accepted. The Texas Rangers are an Affirmative Action/Equal Employment Opportunity Employer.

Ticket Office

Baylor University. University Ticket Manager. Establish and maintain full service, computerized in-house ticketing operations for all university athletics and special events ticket offices. Western Michigan University
1300 Seibert Administration Bldg.
Kalamazoo, MI 49008

WMU is an AA/EOE

■ Legislative assistance

1993 Column No. 39

NCAA Bylaw 14.6.5.3.10

One-time transfer exception

In accordance with Bylaw 14.6.5.1, a transfer student from a four-year institution is not eligible for intercollegiate competition at a Division I, II or III institution until the student has fulfilled a residence requirement of one full academic year (two full semesters or three full quarters) at the certifying institution. Further, a transfer student-athlete admitted after the 12th class day may not use that semester or quarter for the purpose of establishing residency. A transfer student from a four-year collegiate institution is not subject to the residence requirement for intercollegiate competition if the student satisfies any of the conditions set forth in Bylaw 14.6.5.3. [Note: During the student-athlete's first academic year of full-time enrollment, the provisions of Bylaw 14.6.5.3 may serve as the basis for a waiver of or an exception to the residence requirement only for Division I and II transfer students who are qualifiers per Bylaw 14.02.9.1 at the time of initial collegiate enrollment.]

Under the exception provisions of Bylaw 14.6.5.3.10 (applicable to Divisions I and II), a student-athlete who transfers to the certifying institution from another four-year collegiate institution is not subject to the one-year residence requirement provided:

1. The student is a participant at the institution to which he or she has transferred in a sport other than Division I basketball, Division I-A football or Division I men's ice hockey. A participant in Division I-AA football must have transferred to the certifying institution from an institution that sponsors Division I-A football.

2. The student has not transferred previously from one four-year institution to another four-year institution.

3. The student is in good academic standing and meets the satisfactory-progress requirements. The transferring student must be one who would have been eligible had he or she remained at the institution from which the student transferred, and the student also must be eligible at the certifying institution as a regularly enrolled, full-time, degree-seeking student who was admitted in accordance with the regular, published entrance requirements of the institution.

4. The student's previous institution certifies in writing that it has no objection to the student being granted an exception to the transfer-residence requirement.

5. If the student transfers to the certifying institution from a Division III institution and meets the foregoing conditions, he or she may be eligible to compete, but may not receive athletically related financial aid during the first academic year in residence at the certifying institution.

Division II institutions should note that the one-time transfer exception is applicable to all Division II sports, including basketball and football. Further, during its January 10, 1986, meeting, the NCAA Council determined that, in both Divisions I and II, the one-time transfer exception is not available to a student who previously has attended two four-year institutions (other than the certifying institution), regardless of whether the student was enrolled in a two-year college between attendance at the two previous four-year institutions. Finally, a student who qualifies for the one-time transfer exception at midterm and participates at a second institution during the succeeding term would not be charged with more than one season of competition, provided participation occurs during the same academic year.

This material was provided by the legislative services staff as an aid to member institutions. If an institution has a question or comment regarding this column, such correspondence should be directed to Nancy L. Mitchell, assistant executive director for legislative services, at the NCAA national office. This information is available on the Collegiate Sports Network.

■ Biographical sketches of the NCAA executive director finalists

Below is biographical information on the four individuals selected by the NCAA Executive Director Search Commitee as finalists for the position of executive director of the Association.

William W. Cobey Jr.

Current position: Most recently, secretary of the North Carolina department of environment, 1989-93.

Cobey

Professional background: North Carolina department of transportation, 1987-89 (deputy secretary); United States House of Representatives, 1985-87 (member); management consultant, 1983-1984; University of North Carolina, Chapel Hill, 1968-1980 (director of athletics, assistant athletics director, assistant athletics business manager, academic counselor); West Mifflin and Swissvale (Pennsylvania) school districts, 1967-68 (teacher and football coach); Dow Chemical Company, 1965-1966 (salesman).

Accomplishments/honors: Republican nominee for North Carolina lieutenant governor, 1980...Nominee for U.S. House of Representatives, 1982...Member of state executive committee of North Carolina Republican party...Delegate to 1992 Republican National Convention...Speaker at 1984 Republican National Convention...Promoted and helped institute the first local councils on physical fitness and health in North Carolina...Established the Governor's Commission on the Reduction of Infant Mortality; expanded efforts resulted in a lower infant-mortality rate...As state deputy secretary of transportation, coordinated and negotiated the first purchase and lease in North Carolina of a major rail line (48 miles in the western part of the state) to save it from abandonment; rail line has since become an economic magnet for that part of the state...Expanded grants-in-aid for women student-athletes during his tenure as North Carolina AD.

Education: B.A., chemistry, Emory University, 1962; M.B.A., Wharton School, University of Pennsylvania, 1964; M.Ed., health and education, University of Pittsburgh, 1968.

NCAA committees: None.

Cedric W. Dempsey

Current position: Director of athletics, University of Arizona, since 1982.

Dempsey
